Awesome! ?

Apparently it takes a few weeks to arrive, but hey, free stuff is free stuff. ?

I tried this about two weeks ago, maybe even more and haven't received anything!

I first saw it on a coupon site (I forget the forum!) and everyone said they had tried without any luck. Maybe they have gone through with the offers and finally sent them out :)

Make a new card and say it's your birthday in like 4 weeks. Link your phone to the card. They will send you an email weeks before your birthday with ANY free drink! :D
