Thread: [Autobuy Feature for my Website](#)

SFaisalShinwari - June 20, 2014, 7:49 am

Hi HF Users.

I am currently in the making of my new website which will sell Netflix, Hulu, Minecraft, XBL, All these sorts of accounts. I want a feature which allows the user to choose an amount of accounts they want and as soon as they pay, the accounts are sent to them from my hundreds at random, Those accounts are then removed from my database.

An example of this would be <http://www.accountalts.com/>

If anyone can do this for me and/or help me make a website all and all, Please add my skype.
faisal.bestclipsdaily

I will be willing to do something in return for them and/or pay via paypal gift. Thanks everyone! :) ?

How much are you willing to pay for this to be done?

King of Hearts - June 20, 2014, 6:20 pm

You can always use <https://sellan.net/> for selling such items for free.

How much are you looking for such a service?

Bag - June 20, 2014, 7:49 pm

Shoot me a pm if you still need help!

I could do this ^.^

Kenny West - June 20, 2014, 7:58 pm

I'm selling a completely setup autobuy system just like this! I'll add you on Skype.
