Đ&v KİĐ - June 20, 2014, 2:42 pm

I REMOVED SHARECASH LINK, NOW MEDIAFIRE. IF YOU DOWNLOAD, COMMENT AND RATE, DONT BE A DICK.

=====

In the beginning, i released, DDOS Tools. The Noob friendly starter kit for Ddosing. Fortunately it was a hit! 3 years later, I bring you, Xploit Tools. The noob friendly starter kit for Rats with a few extra nooks and crannies to get you going on your first Botnet. This kit is designed to give newcomers an easy place to start without having to dig too deep. Now lets cut to the chase and see whats under the hood in this release.

=====FEATURES

Rats o==o DarkComet 5.3.1 o==o
o==o CyberGate 3.4.2.2 o==o

Stealers o==o Syslogger o==o
o==o Elite Stealer o==o

Binders o==o iBinder o==o
o==o Redlions Binder o==o
o==o ShockLabs Binder o==o
o==o Simple Binder o==o

Crypters o==o Fly Crypter V2 o==o
o==o Highlife Crypter o==o
o==o Moon Crypter o==o
o==o Saddam Crypter o==o
o==o Psomasweb Crypter o==o

Other Tools
o==o DarkComet Remover o==o
o==o File Extension Spoofer o==o
o==o High Orbital Ion Cannon (shits and giggles) o==o

Other Features include direct links to Useful Tutorials for RAT Setup and Portforwarding.

In the future i will update this to have an E-book Section

This kit is intended for Newcomers only.
Great Place to start with some useful tools.
I do NOT know the detection rates on these Cryptors.

Install Instruction

Place folder that says "Xploit Tools" directly into C:
Extract Complete Backup
Create Shortcut and your done.
Dont forget to add an exception in your AV if need be.

=====

=====

THERE ARE FALSE POSITIVES IN THIS KIT.
USE AT YOUR OWN DISCRETION. Enjoy ?

Can you give direct link? Just not survey please :(Because this program looks very good :)

DEv Kjd - June 20, 2014, 3:07 pm

Give it a week and ill remove the Sharecash.

I spent time on this and time is money.

1 week.

Removed Sharecash link.
