This Is My Honest Opinion About The E-Book (First Look):

Alright hey guys, this is my honest first look opinion. Jaguar did not lie, do not buy this ebook if you are lazy because you will not earn! It looks extremely difficult to me because I've never experienced this side of monetizing, but I hope I will learn.

My thoughts about the video support:
The videos are very good, but you know what will make them better? If you did a voiceover, it's one of those notepad things but it still gets the point out.

Good And Not So Good Stuff About/In The Ebook:

Good:

Extremely Detailed

Shows the credit system and how to earn

There's an overall of the entire method (in a nutshell) which I like

Shows what you are using \$4 to invest for

I like the pictures, they help alot.

Not So Good:

The Table of Contents Is Hard To Read (If fixed it'd be good because if you click the part it takes you to that page!)

You have to download and create some things, the main thing you create is kind of difficult but you can use credits to get it done for you.

Kind of plagiarism, but no action will ever be done.

A link to something we need to download doesn't work with

Windows 8, which I probably don't need, just going to use credits for it xD

Overall Rating (First Look):

8.75/10

Edit: While you only need \$4, you have to have at least \$10 because that's the minimum...

When I always go out to eat, I think: "The more \$\$\$, the better it tastes". Kind of the same with ebooks. Higher risk = higher return. I purchased this ebook. I am yet to see profits, because I've been extremely busy, with all my plans and stuff, that I don't even have a couple of hours to do this method. But I do see the light at the end of the tunnel. You probably will make money out of this.

I was really lucky to win his Wear and Win contest

First of all, thanks for hosting that.

I received the full ebook package a couple of days ago.

I would like to post a honest unbiased review on that. No fancy stuff, everything to the point

As promised the package included 3 videos, well detailed ebook and lots pre made, ready to use files which are needed for this method

All we need to do is edit the files he has given us.

Even complete newbies can do this. Thanks to the detailed step by step video tutorial.

I started around 48 hours ago and started earning within no time

See my earnings for the last 48 hours :

I can vouch for this product without any doubt.

This will make you money within no time

I've just purchased the elite package, hopefully a broke ass college student can make some money.

I'll do my best to update this as time progresses. Look forward to reading the ebook.

EDIT: Just received my copy, heading off to work now but look forward to reading it later.

You have been rejected.

I will have to make the method the most secret one in HF. Thats the main reason why I'm rejecting potential customers.

Just read through the book. Although it isn't presenting anything drastically new, it is providing a method which for sure works and he has provided a lot of information and tools which will make earning money this way much more efficient. I still have yet to fully look through all the videos and tools that has been provided, but everything looks good. The customer credit system will be very helpful in completing some of the more complicated tasks that this method requires. There is a vast amount of earning potential here. I will post some payment proof as soon as I have some to show :)

I just now was able to open the book, and I can honestly say this is probably the best book I've seen. It is definitely worth the money and I would definitely recommend getting the highest package to help out Jaguar YOU will definitely be making your money back with this method. Once I get everything set and running I will be posting proof of payments also I really love the videos very helpful! The grammar is outstanding only a few mistakes here and there, but it will not distract you and the method as a whole is very good.

WARNING: DO NOT BUY THIS IF YOU'RE NOT WANTING TO PUT IN EFFORT. This book requires effort BUT if the effort is put in your rewards will be high.

Vouch for Jaguar!!

The book is very detailed and videos are very clear. To earn money, I think I work on this method a lot. The method is different.

When I get my first earning, I will share here.

BOOM! I'd like to say \$18 was from the past three days
Note: This is not money that I can use! I need to accumulate \$50 first, but I don't think it'll take long :)
