Thread: [Sales Tags Preview](#)

**Omniscient** - June 22, 2014, 10:08 pm

Just so you guys know what I've been working on...

Spoiler ([Click to View](#))

The idea is that sellers in the Marketplace will be able to purchase a tag for their threads. This will help highlight your thread with the icon.

Sales Tag will be what these are called and they will be purchasable only with OMC.

These will be a one-time purchase for a thread. Price is not yet set but it will likely be reasonable between 100-1000 OMC. I'd like this to be in the \$1-\$5 range. I'm still considering pricing options because some tags or some forums might cost more. Also I may give discounts for ub3r members.

Any thoughts?

**Travs** - June 22, 2014, 10:09 pm

Looks pretty nice. Should add some life to the marketplace.

**bandors** - June 22, 2014, 10:10 pm

Huh, this is going to be neat. I'm glad I have a lot of OMC left.

Not really, anyone with a shop could acquire OMC and buy a tag.

But I do like the thought of creating more uses for OMC and this is a nice step further into the HF integration.

Can't wait to see this play out.

This is true, but I'm sure that this will probably drag a couple more idiots into someone's thread.

**Omniscient** - June 22, 2014, 10:14 pm

I'll probably set it so that only 3P1C can purchase it too btw.

**Grumpy\_temp** - June 22, 2014, 10:16 pm

Well, that's awesome, Omni! Although only a small feature as such, anything that increases the use of OMC is going to help the price, and the price of OMC could sure do with some helping right now. Keep up the hard work! ?

**Tibit** - June 22, 2014, 10:16 pm

Looks interesting, hopefully it won't be too over used though.

**Obli** - June 22, 2014, 10:16 pm

Thank goodness I have 15k OMCs. I knew that you were working on something, Omni. Great job!

**clark.dll** - June 22, 2014, 10:16 pm

Interesting idea, I like it. However I think you should make them all the same size, just to clean it up.

**Understalker** - June 22, 2014, 10:16 pm

This is going to be amazing.

Looking forward to this.

Okay there we go, that will definitely keep the tags more exclusive.

It would highlight the few threads that have it as well as incentivize ep1c further.

**Ecuador** - June 22, 2014, 10:18 pm

Wow that looks awesome IMO Great Job Omni.

**Grumpy** - June 22, 2014, 10:19 pm

This is going to be so good. I really can't wait. Although it may look the viewforum page look a bit tacky, I guess if the icons are designed well then there won't be any problems, hopefully. It's gonna be a great feature for sure! ?

**Shockley** - June 22, 2014, 10:22 pm

Cool feature. Blends nicely with the UB's as well.

**Justin Timberlake** - June 22, 2014, 10:23 pm

Seems like an interesting change to draw attention to marketplace threads in place of all capital letters.

**Cryptic™** - June 22, 2014, 10:25 pm

I like the idea but I don't like how it would be a one time purchase.

If it's going to be within the \$1-\$5 range it would be better weekly or monthly.

If it's a one time thing then else every single thread in the market place is going to end up getting one and it wont be as "special".

**Sinq** - June 22, 2014, 10:25 pm

It's nice but make it so it looks good and doesn't look like one of those sites with ads everywhere that look like total crap.

But good implementation!  
Good luck Omni.

**Respect** - June 22, 2014, 10:27 pm

Seems cool. Will bring some colour to the marketplace. Hope it doesn't look too gimmicky though.

Quote:If it's a one time thing then else every single thread in the market place is going to end up getting one and it wont be as "special".

I'd be okay with all the threads in Marketplace having them. But I'm going to guess the majority will be in high traffic sales sections like Premium, Ebook, and SST. This is meant to be something used frequently. Price will fluctuate but again...I'd be okay with the majority of sales threads using this. That only means more adoption for OMC which fits into my wider scheme. At the very least sellers who accept OMC have something to do with them now that actually helps increase their sales.

A ton of these tags will be bought by eBook writers. Gonna be more annoying then ebooks already are hahaha.

I'm actually more interested in the theme that you're using :D

Just to add a little food for thought in this, if you were to make them a one-time purchase (per thread), what would stop people from recycling threads when they're done with selling something and thus getting around the need to pay again for a new icon?

I like this.

Another great way to integrate OMC.

I've got some BTC right now, so I might just go to AllCrypt and invest in some OMC with some of the new additions. I'm excited to see how this all works out.

**A Powerade** - June 22, 2014, 10:46 pm

This looks pretty nice.

However, I think that it would look better if you make the sales icon to be the same style as the

other icons like these:  

Regards,

**Billie Joe** - June 22, 2014, 10:49 pm

I like this, but I can see it getting very annoying to look at.

I will be purchasing for sure.

**VRUMM** - June 22, 2014, 10:49 pm

I really think you should make it very exclusive and raise the price, or I will just have to adjust my eyes to the new fancy colors everywhere. Also I like the idea of something expensive that can only be purchasable with OMC. Makes me feel like a rich bitch with lots of omc.

**Telstra** - June 22, 2014, 10:49 pm

Looks really nice, will definitely purchase this for all my sales threads! Definitely an eye-catcher.

Indeed, it'll drive up the demand of OMC, and thus increasing the price as well. This will then stimulate more users to use OMC! It's a win-win situation for all of us.

**Truth** - June 22, 2014, 11:10 pm

My thoughts is it would be its better for omc to auto buy Stickys, Sponsored Products and Services and maybe even banner ads. those will mostly be bought more than these.

The reason I dont see tags being bought as people always put BEST OFFER, 50% OFF, [CHEAP] ??? etc

Which is kinda like a tag

While I agree with you, those are going to cost ridiculously high prices. A section sticky is what around \$30/week? \$30 in OMC right now would be about 5k+ OMC, and that's a fair bit of OMC for the average Joe. While it's a good idea for sure, while the price remains this low I don't think it's realistic for such a feature to be implemented.

I'm pretty sure Omni has considered these already.

The more automated HF is with CryptoCurrencies the better in most cases.

**Frawshy** - June 23, 2014, 12:17 am

This is the most beautiful thing I've ever seen. What's with the black forum though, is that something new? I definitely would love to be able to use that for myself, it's a lot better than the blue, IMO.

A simple suggestion, raise the price from \$5 to roughly \$15-\$20. Reasoning being that it'll deffinitely lessen the chances of seeing these, rather than everyone quickly picking them up for \$5 and increasing their sales by 20% just from a quick \$5 lifetime investment. Also, with these I believe once a thread is set to a product, it shouldn't be allowed to be changed to a completely different product. For example, user is selling a RAT, two months later he decides he'd rather sell a Crypter and save out on the \$5 and just change the thread layout and title. Easy to understand?

Also, it'd be pretty easy for someone to get some extra scams in with one of these, due to newer members not understanding these, other than, "Oh wow, a shiny button, must mean it's a legit service!" That's how I would've thought when I first joined, tbh.

I really want that black skin tho. ?

EDIT: Will you be allowed to purchase multiple sales tags for a single thread and be able to rotate them out whenever you feel?

**Rubentastic** - June 23, 2014, 12:55 am

Seems like a cool feature. I hope it doesn't flood my whole screen though. All the colours kinda makes me go crazy :P

(Jun 23, 2014 12:17 AM)Frawshy Wrote: [\[CITE\]](#) EDIT: Will you be allowed to purchase multiple sales tags for a single thread and be able to rotate them out whenever you feel?

This would be a good idea if you for example start a sale with some discount and want to change it or whatever.

I think the tags themselves don't seem to fit in. I don't see this impacting OMC in a detrimental or life changing way either. I personally vote against it and will wait for a userscript to remove them. It's boosting competition between different threads in the same section, I don't see them being that important and for me just an eye sore.

**Mr Royal** - June 23, 2014, 1:25 am

The small portion of users who may choose to block via a userscript will be significantly less than those who view the tags. All I'll say is that I think any additional OMC-related features is a bonus. They all help give the coin more value and the price has already jumped from \$0.0039/coin to \$0.0049/coin since this announcement, so it's helped. As more features are released the coin will slowly become more sought-after.

On another note :

Omni I love the idea.. But I'm worrying that this will soon become a requirement for all sellers

**Funtage** - June 23, 2014, 1:41 am

I'm not a big fan of the idea if it's a one-time purchase or if there's no limit the amount that can be purchased within a sub-forum (like stickies).

I like the idea, but I just feel that if everyone has access to a 'sticker' that it'll no longer be as special and would just clutter forums up quite quickly. Obviously everything is still in development at this

stage, but that's how I feel about what we've been able to see so far.

**'Snorlax** - June 23, 2014, 3:13 am

Looks interesting. It would be nice if this would only be weekly purchases or so. Not permanently.

**Designer** - June 23, 2014, 4:06 am

Omniscient is not using that theme, for those of you who were still wondering - This thread is only about the sales tags.

I'm not 100% sure yet, but I think a weekly (or monthly) payment will work better in the long run. These tags will obviously draw more attention to (sales) threads, so having them at such a low price and one-time purchase will make them less valuable. Having them as a weekly payment would make the tags somewhat more valuable and it also gives users the option to switch tags after their current one expires (unless you don't want that or are already building that option).

**Roger Waters** - June 23, 2014, 4:07 am

Looks pretty cool, adding more functionality to the site using OMC with it is good for the site and using OMC as the payment for it is good for everyone. Exchanges, sales, and transfers of OMC are all good for the site. Its a win-win all around.

**Brule** - June 23, 2014, 5:06 am

Looks nice, and I like that you may only purchase one with OMC. :)

**Majestic12** - June 23, 2014, 5:30 am

Nice Idea, Will Surely boost OMC. But I think that e.g 750 OMC for a Month, Or 250 OMC For a week, etc. Would be a better approach, as opposed to a lifetime/one time purchase. This way, It gives people multiple buying choices, and wont saturate the market with sales tags.

**Cletus Kasady** - June 23, 2014, 5:32 am

Great idea and hopefully it puts a rise in the price of OMC.

If everyone bought the same tag, wouldn't it defeat the purpose of having one, to stand out? Let's say we're talking about a section where you can only sell in that section if you have a sticky. What if everyone liked the same tag and bought the same one, it would kind of be pointless.

Not everyone is going to buy tags for their sales threads, remember that. Some people don't use OMC, some people just won't feel it's good value to buy for their thread. Some will buy it just to try it. I don't think it's gonna be a feature which "takes over the forum" as such, just more of a nice little extra implementation for marketplace sellers. ?

Personally I don't believe Ub3r's should get a discount, maybe Ep1c if non Ep1c can purchase.

**Darkwin** - June 23, 2014, 7:45 pm

I think you could make it to where users can create there own tag, It would be REALLY expensive maybe like \$100+ but it would be worth it since its something unique. I would be willing to pay \$100+ in OMC for a shiny tag like that, then again i'm aware not everyone may like that idea.

Or maybe working on with that idea, group tags, for products endorsed by groups.

I'm sure this has been suggested countless times, but if these are only \$1-\$5 they will be overused and won't be worth it after a few months as everyone will have it.

I would say at least \$10 for the cheapest tag, and go up from there.

I think he's working on that problem by only letting ep1c users purchase it.

But I do agree the price should be increased just a little more.

**Omniscient** - June 23, 2014, 10:00 pm

It's easy enough to increase the price later on once these are proven effective and popular. I will not price these high to begin with.

Ah forgot you are only accepting OMC for these.

>Provide lots of features on HF, sell for OMC

>Hoard that OMC

>Demand goes up, therefore raising the price

GG.

That seems like a really good idea in my opinion. I don't like the "best offer" and "top seller" tags though. It seems like they should only have a tag like that if they do actually sell the most or have the best offer, instead of getting it just because they paid for it and the tag not being true.

I think that would be almost impossible to moderate or look after. And if you see some titles of for example ebooks claiming to make a few thousand in one week it's kinda the same. You just use it to sell your products and make them attractive. The tag does not mean that someone is trusted or not. Or if it's really true that they have the best offer.

Good idea, Threads will have a limit of one "market tag" I'd assume ? Prices should be high to avoid turning the market place into a rainbow.

**Jaguar** - June 24, 2014, 3:25 am

That's a great idea.  
Waiting for this to come out.

Well from a marketing stand point

If you go cheap tons of people will have them meaning everyone who wants sales will need them which means tons of low cost sales.

If you raise it then it will be less but still a good number at a higher price  
Either way they look sweet

**U63R** - June 24, 2014, 5:22 am

This will be great! Good luck in future development.

I will start to save my OMCs.

Will there be a limit of tags per section? Because if not the forums will look way to clustered.

We wouldn't want to see every thread in there with tags.

To be quite honest, I would recommend to approve threads that are actually HQ and that's been there for a while. Exempting the SALE tag.

Except for that, they actually look good.

PS: That theme looks sick as fuck.

Omni already said he wouldn't mind if everyone uses this. He is just encouraging the use of OMC through features like this.

**\_Phoenix** - June 24, 2014, 5:13 pm

It honestly will just be more spam for the marketplace.

Whoever pays more will look better, that won't necessarily reflect on their product as most of us know.

However, if you're willing to lower quality of the forums for more revenue which will keep the site up, go ahead.

EDIT: Just saw it's OMC only. Of course you'll also want to inflate that, so you gotta pros/cons this.

**POLY MATH** - June 24, 2014, 5:15 pm

Am I the only one interested in the theme that Omniscient is using? None the less, seem like a good feature.

**koshka1** - *June 24, 2014, 5:45 pm*

Looks really tacky, but that's my 2 cents.
