Did you make this 100%?

Because if so this is amazing!

I love the colors, and the clouds I fucking love this.

Although down towards the bottom, in the middleish left., the strokes need more blending.

That's actually amazing.

It's quite catchy bud. I'll give it a 9.5/10.

Eaesi - July 4, 2014, 6:11 pm

It's not bad at all, but in the middle area it looks like you slacked off and rushed it. ;3 I'd give it a 7/10, not bad at all.

I can see this used in a thread design.

Oh well, good job.

Obli - July 4, 2014, 6:15 pm

Well I like the piece tbh, but I think that you could have worked a bit more on lightning
I also don't understand the blue parts of the mountains.
Other than that, good job, you're getting better.
