BIGboy! - June 27, 2014, 9:52 pm

Just a tip mate, it will help your sales a lot if you post some screen shots (or even better, links) to some previous work that you've done so people can really get an idea of your skill level :)

Good luck with your sales :)

Thanks for the tip, but we feel like we will only show off examples of work we've done through this service. For examples of individual work, feel free to check through our profiles to see our other web development / programming service threads. ([+iPokemon](#), [Fanta](#))

Hey, I need a website to be designed and coded a little bit.

Are you available? PM and I'll give you the details.

You won't have to design anything or code anything from scratch by the way.

Thanks
