Compile it as a DLL and add it to your C#-Project?

its a theme, it doesnt "do" anything rather then make your form look pretty.

Server97 - June 28, 2014, 3:48 pm

It's a theme. It makes your program and form look more professional.

Ryan?? - June 28, 2014, 4:02 pm

Very nice, I might end up using this. Thanks.

I wouldn't go as far as to say it makes it look professional, But it makes it more appealing to non programmers 8~)

I know my eyes aren't that good but I have trouble reading it, the contours are too bleached.

Looks like a C/P of Banksy's theme : <https://hackforums.net/showthread.php?tid=4192734>

Even the error handler is the same..

This is not Banksy's theme. It's the metro theme.

<http://thielj.github.io/MetroFramework/> - I presume this is what Banksy used for his crypter GUI but as it seems, his listview is custom.

Stop being ignorant, this theme is a blatant ripoff.

alexRO - June 29, 2014, 11:39 am

how to install in vb im new in forum :) Thanks!

Under the HackForums title where it says "Search". It has been posted here like 999999 times so far... in fact; I think I just saw someone post it again recently so I'd go back a few pages and you'll see it.

Bosto - June 29, 2014, 7:39 pm

Thank you for the theme.

I will use it for learning purposes.

This is more like a DotNetBar metro form rip off. It looks almost the same, including that blueish shadow behind the theme.

jbr07.hacker - June 30, 2014, 6:47 am

wow that one is really good
Thanks So Much ;)

yeah i trying but not work for my visual studio 2013 have incorporated vb c# etc...

Cyber Saint - June 30, 2014, 11:40 am

This actually looks really nice. I'm going to use this for an application that I'm currently working on.

It's MetroFramework i think ^^

@OP: Awesome edit of themes.

So you wrote all that then? Edited sources or bad sources already are obvious.

Did i even said that i wrote everything myself ?

it's a mixed theme. That's why i gived credits.

Cairns - July 1, 2014, 7:45 am

That original metro theme that got posted is awesome. Wonder if it can be changed color

zyvox - July 1, 2014, 4:11 pm

Am I the only one here who likes this theme? It looks really sleek and cool.

Also I see it's pretty similar to the Metro theme that got posted but as OP said in the pastebin it's an edit of themes and he gave proper credits.

Thanks OP.

Gean Kevin - July 7, 2014, 3:47 am
wowwww very goood theme
thankss you :)

Naywyn - July 7, 2014, 7:28 am
Thank you guys.

/Message too long.

I like this theme, looks pretty and clean.

Sry for this grave dig btw :p

Dangerous Beef - November 5, 2014, 9:19 pm
Ripoff/mix/original or not i personally like this theme but the color can be a little bit darker so it's easier to see.

Question: I guess you can change the colors of the font in the properties windows for all the controls ?
