It's "AN" organized crime, not?

Looks good to me :)

Cyph Jr - June 28, 2014, 2:24 pm

It seems pretty simple I'm sure you could do better.

The Idea is to keep it simple and good looking :)

As long as it doesn't end up on "cheapwashingmachinesales.com" & stupid shit, and it's placed appropriately, then I don't see anyone having an issue with it.

Then again, why do you seek people to rate your deface page? Nobody cares.

Who gives a shit? Gosh people spending more time on their bullshit deface page then actually improving their skills.

Impress. - June 28, 2014, 5:45 pm

Not bad but I'm not a fan of defacing

J???? - June 28, 2014, 5:47 pm

Real hackers don't use deface pages <3

420 Blaze It - June 28, 2014, 5:48 pm

Pretty simple, tbh looks kind of shit. Lel.

Davidddd - July 24, 2014, 11:53 pm

Looks good. Is there any way you could do that on IPB?

Mommy???????????? - July 24, 2014, 11:55 pm

Pretty nice, the text came in pretty fast imo. But thats it.

Aquilaane - July 24, 2014, 11:57 pm

Clean and simple. But I think you could add more detail and still make it look clean and simple :)

This post pretty much sums up most of HF's members right now.

Unless you have a sparkling cursor, flashign BG, matric text and every other copy and pasted javascript in the book, it looks shit. Personally I dont like defacing OP, why deface when you can remain undetected, get better access or harness your access for money or better reward, but as far as defaces go, its pretty simple and good.

?Dødøsky - July 25, 2014, 12:49 am

yeah i like this too!! keep up the good work bro... maybe you could make the written text appearing slower :)

unkn0wn1 - July 25, 2014, 8:28 am

nice page man but ! you need to find a lot of websites and hack them ! :)

Well because some men aren't looking for anything logical, like money. They can't be bought, bullied, reasoned, or negotiated with. Some men just want to watch the world burn.

Zealot - February 10, 2015, 4:25 pm

I like it, OP. It's simple, looks good, and it's straight to the point haha.

evanX29 - February 14, 2015, 1:41 am

Pretty good (y) but I love it if you made some styles/design

Linus Torvalds - February 15, 2015, 5:55 am

I love it! If you want some criticism, I'd say use up more of the black space. ?

S. Goodman - February 15, 2015, 6:02 am

You can still add some things and make it look slick, OP.
