Thread: [Exploit .exe to .pdf needed silent executor](#)

info1965 - June 28, 2014, 11:41 pm

I kindly wish to relay that I need anyone that has access to exploit .exe to .pdf silent executor. I have the Hex editor but dont know how to inject the virus tuo execute silently. I was ripped by silent Oday claiming to do this. Any help pls revert back to me.

Fiora - June 28, 2014, 11:43 pm

The user alan turing has PDF exploit but only affects certain outdated versions. That or you can bind it but it makes detected.

Thrift. - June 28, 2014, 11:50 pm

what the fuck is your poll?

"i kindly wish to relay"

"revert back to me"

your post makes no goddamn sense. there are .pdf exploits but you cant just magically get a hex editor and edit hacking4noobs.pdf into some kind of trojan. do some research buddy.

xchg - June 28, 2014, 11:53 pm

There are spoofers to make .exe into .jpg and stuff like that, although they don't work very well. Honestly I would just bind it. Easiest way.

Alan has a PDF exploit but he does not want to update it and its kind of detected i just wish he could work on it and improve it

info1965 - January 30, 2016, 7:58 am

can anyone give me the Alan detail let me know if he has refud his exploit

endowed - February 14, 2016, 1:29 pm

been long i spoke with him but you can check this guy <http://1337net.ru/> and please delete some messages from your box cos its full

<https://hackforums.net/showthread.php?tid=4944806> check out this guy thread and this one too <https://hackforums.net/showthread.php?tid=5077048> and again delete some of your message cos in don full
