Decent sales thread you've got there. (Not saying mines better). I saw your quotes in the top, and were wondering what you mean with them o.O

"Design is intelligence made visible", "We believe in quality not quantity". So design is actually pure "intelligence", which you're making visible? XD

We believe in quality, not quantity, what do you exactly mean with this? I do understand English, but for some reason it doesn't make sense in my head. Basically you believe in "quality", and not in

"quantity" .. (Im bashed)

Hello,

"Design is intelligence made visible" This is a quote and the meaning of this quote is: Design is a idea to which designer gives shape/ Make it possible. By "We believe in quality, not quantity" This is also a quote and the meaning of this quote is very simple. We focus on quality more then quantity. There are some people who focuses on more sales then providing quality to there customers.

Hello,

PSD's are not given out for Modern designs only. I do give out PSD's for all other types of designs.

This term of TOS: You cannot use any material from design I made for you without permission of mine." is for those who rip off others work. Once you have purchase you own the work but you cannot claim it as you have made it. I hope this will clear everything ?.

Was hoping I wouldn't have to do this, but this is the honest truth of how I was treated with King -

Have not had this bad service with any designer prior to this one. I requested a logo, he promised it delivered in 48 hours, and I received a logo late around the 3 day mark.

Then, I requested for the icon of the logo to be changed, King did not respond to me after 6 days. I contacted him again after 6 days, he attempted to put the blame on me and asked why I didn't contact him again. I originally contacted him, got ignored for 6 days, and then he tried to put the blame on me.

Not only that, but he will not be sending over the psd of the file to me.

It's your responsibility to send over the finished product when it's done, and to respond to your customers. He said he didn't remember to send it over as he had too many clients; that's not how business is conducted.

Terrible service. Also, the design was completely mediocre and looked as if it was made in 10 minutes.

After getting numerous GFX works done by King, I am here to leave a vouch.

This guy truly justifies the GFX award he has. This guy will make you absolutely professional and stunning graphics. He is friendly, polite and creative. When I hired him for some projects and businesses, he truly came to his words. He made me wonderful gfx with unique concepts. He at some points explained me as well which one would suit better and which one would cause problems. Absolutely wonderful experience. I got him to change the 100% finished materials like 8 times in a row and he was not even angry. Every time, with a kind gesture, he took my opinion and worked hard on it.

Hey, I have hired many GFX artists, also there are many on HF, but if you need something done, get this dude.

He is a bomb! ?

I need a design done and I provided all the info to KING STUDIO. I described what I wanted and he delivered. Better than I expected to be honest. I asked him to make one small adjustment and he did so as well as providing me the right file type so I can get it printed.

The design looks great and It is exactly what I wanted. Also, the service was cheaper than I imagined.

Working with King was an excellent experience, very quick to take on project and start working on it. Portfolio was excellent and asked questions to ensure I would get exactly what I asked for. A little Slow with follow up questions (influenced mainly by me being excited to see the product), but once It was complete under 30 hours from time of purchase I was beyond impressed with the final work. Sent all the files and sizes that I can and will be using for the product. I will be working with them again in the future.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
