On-going Contest:

Sophistication - June 30, 2014, 12:49 am

Anything really special about your forum? Sounds kind of basic

JumpWar - June 30, 2014, 2:13 am

You didn't even change the logo that came with the theme???

Do that!

Personally like that theme ^^ But seriously the Logo doesn't even say your forums name and you expect people to join?

Sounds kind of basic

We currently have a custom betting system along with lottery. Does any forum out there offer real \$ as a cash prize for winning a contest? We do! We will also get custom coders to code special and custom programs for our members. Also, the theme is in construction. The banner will be placed shortly.

We have uploaded a new theme.

Soon, a new logo will be input. Register to participate in the contests while they're up!

Bump!

We're recruiting staff! Try your luck and apply!
