Thread: [Omnicoon Integration](#)

Autopost - July 1, 2014, 9:38 pm

I'm not sure if this has been suggested, but I had a look around and couldn't find it anywhere (not officially anyway). Anyway, I'm sure Omniscient has at least pondered over this idea, and I think it's a step we need to take, especially if we want it as the official HF currency (below).

(Jun 25, 2014 12:47 AM)Omniscient Wrote: [\[CITE\]](#) "stay a HF only coin" was never the intention. It's intended to be our official coin with focus and integration here. But even with that goal the need for more stable exchanges to have OMC is important. Sellers that accept OMC are going to need places to exchange them beyond HF. Allcrypt is usable but it's small and they don't have the security features other exchanges have. And what do we do if AllCrypt goes out of business, gets hacked, or even removes OMC for some unknown reason?

It became apparent we needed an exchange. It's become even more apparent we need a larger exchange.

Anyway, with this being said, I believe we should have an OMC integration system here, either by allowing us too deposit OMC on site or linking it directly with our OMC wallets (Where somehow we need to confirm it by sending say 1 OMC too a setup address).

Example of profile view integration; [\(Click to View\)](#)

Example of thread view integration; [\(Click to View\)](#)

Another reason this is needed is that it could be used as a scam deterrent, people could easily trade on-site and have evidence, they would know exactly the balance they had too spend. It would also boost OMC activity in the marketplace, as anyone who intends to deal in the marketplace would almost need to have OMC.

Anyway just my 2 cent, let me know what you think ?

EDIT: <https://hackforums.net/showthread.php?tid=4196659&pid=39749318#pid39749318> - Omni's planning something, still believe this is useful for suggestion.

Wow I actually like this idea. Looks so slick. ?

b?xxy - July 1, 2014, 9:40 pm

This is actually an amazing idea, I really like it.
Not sure though, but still amazing!

Autopost - July 1, 2014, 9:41 pm

(Jul 1, 2014 09:39 PM)musique Wrote: [\[CITE\]](#) Wow I actually like this idea. Looks so slick. ?
Thanks, naturally this would take LOT'S of work; it's not as easy as a javascript edit that I did.
I don't see it being done in a week, but if we got enough backing, I do believe this is possible, one way or another.

Satan? - July 1, 2014, 9:41 pm

I would have to agree on this honestly.

Cesar Morales - July 1, 2014, 9:42 pm

I think this would be amazing. Definitely something that would stick in my opinion. I hope Omni looks into this :)

420 Blaze It - July 1, 2014, 9:42 pm

This was actually ALREADY suggested, but it's not on Omni's priorities list.

Matrix Programmer - July 1, 2014, 9:42 pm

What if Omniscient does already have this or something similar in the books? Now wouldn't that be amazing. ? I do remember him saying he wants to cut down on scams. I'm excited for what he has in store and would love for OMC to be integrated into HF as deep as you'd suggest. ?

mvmt - July 1, 2014, 9:44 pm

I agree with this suggest, although it has nothing to do with Omni's quote.

He says he wants OMC supported on a larger exchange outside of HF, yet you are suggestion forum integration. These don't go together whatsoever, but I do agree with your suggestion.

Talu - July 1, 2014, 9:47 pm

Looks like a good idea, but you removed prestige...

Autopost - July 1, 2014, 9:48 pm

I quoted that post because he said he wants it as HF's official currency... not for the rest.

(Jul 1, 2014 09:47 PM)Xero? Wrote: [\[CITE\]](#) Looks like a good idea, but you removed prestige... that was just for ease, it could be done without that, but as prestige has no use currently... and this certainly would.. I thought it was a good idea, clearly there's room for further suggestions

VirusTotal - July 2, 2014, 12:58 am

I like this idea. Hope Omniscient will implement it ?

Obli - July 2, 2014, 1:01 am

How do you think that showing off your OMC balance will help the rates? Doesn't give you any new features.

This is pointless, although I'd like to see real OMC integration which would help HF.

Wolf - July 2, 2014, 1:02 am

Love this idea. My support to you sir.

Autopost - July 2, 2014, 1:06 am

OMC balance would be for the marketplace, to show people you have it.

BLURRYF?CE - July 2, 2014, 1:11 am

This would be a great idea if it also linked the OMC addresses to HF users' usernames so that you can see exactly who sent what money to who.

Kioshi - July 2, 2014, 3:47 am

I would believe something like this was already confirmed...

.Matt - July 2, 2014, 3:52 am

But you gotta consider that some people want privacy in how much money they have... I for one would opt-out of using this on my profile as this will just cause the 12 y/o who has a bigger money dick problem.

Edit: This will not stop scams at all. All the scammer would have to do is put someone elses address in that has more balance or just use their own balance with something like 10k omc and just not send.

-Petrichor - July 2, 2014, 3:54 am

I think this would be good because of easy to sell and buy items from marketplace. How much is one omnicoïn worth?

Autopost - July 2, 2014, 4:06 am

I agree with a users above option, there would be an opt out option.

As for the scamming, I already mentioned somewhere, you would have to send a confirmation to an account or something.

Like I said, this is an idea, there will be lot's of further add-ons and planning.

Since i have a lot of spare time i decided to make a userscript to use in the meantime if omni is going to release this into HF. ETA about 1 hour.

SIM-888979 - July 2, 2014, 5:30 am

Hey ho people, developer of OmniCoin here.

This is totally possible, but I totally do not recommend integrating it onto Hack Forums. Why? Because let's be honest, Hack Forums is not unhackable. It has been hacked several times now (I think), and placing currency on our accounts will lead to more problems. First of all, Omniscient would have to do a lot to get this up, such as creating a omnicoind, creating a script for generating a unique address and sending the private key to the user, ya-diddle-ya, too much work for what?

A cool little text showing how much coins you have? That's stupid, and unnecessary.

EDIT: Userscript that displays a wallet's balance on the other hand, is simple and can potentially be added to HFES instead, try talking to Emylbus.

Catalysm - July 2, 2014, 5:33 am

I would love to see this implemented!

CounterStrikeGO - July 2, 2014, 5:33 am

Next thing you'll want is a pointshop right?

Neat? - July 2, 2014, 5:51 am

Also, he could add a hide tag which can be unlocked with OMC payment..

SIM-888979 - July 2, 2014, 5:57 am

(Jul 2, 2014 05:51 AM)HURRR Wrote: [\[CITE\]](#) Also, he could add a hide tag which can be unlocked with OMC payment..

No, no, no.

You're not looking for OmniCoin integration, you're looking for a point shop.

630 - July 2, 2014, 5:19 pm

How much OMC I have is none of anyone's business. I don't support this and don't see it needed. Only people that might use it is people in the marketplace, for people who don't use the marketplace there will be no need.

Baked - July 2, 2014, 5:37 pm

I agree completely, if you have a big number of OMC it would most likely put a target on your back.

Autopost - July 2, 2014, 5:40 pm

this is essentially a marketplace suggestion; so I agree.

Also like I said there should be an option to display (or not).

Sajuuk - July 2, 2014, 5:45 pm

It'll be funny to look at people like me because I don't have single fucking Omnicoin, and probably never will, in fact.

Autopost - July 2, 2014, 5:47 pm

(Jul 2, 2014 05:45 PM)Sajuuk Wrote: [\[CITE\]](#) It'll be funny to look at people like me because I don't have single fucking Omnicoin, and probably never will, in fact.

Question is though? Do you deal in the marketplace?

POLY MATH - July 2, 2014, 6:03 pm

This will happen eventually...I mean this is where it all started but as of now I don't believe we need to be promoting Omnicoin as much on HF. The community is trying to increase the value of the coin.

420 Blaze It - July 2, 2014, 6:04 pm

This will happen soon, Omni has better plans to do this. Why doesn't anyone backtrace the Suggestion Threads?

Nasyr - July 2, 2014, 6:21 pm

Need to say it, this is an awesome idea!

Sinq - July 2, 2014, 6:21 pm

If this was possible, I'd start getting into OMC a lot more.

Nice idea man and nice examples.

Omni it would be sick if you could do this.

Autopost - July 2, 2014, 6:39 pm

(Jul 2, 2014 06:04 PM)420 Blaze It Wrote: [\[CITE\]](#) This will happen soon, Omni has better plans to do this. Why doesn't anyone backtrace the Suggestion Threads?

On further searching, I found an idea that relates, but isn't the same.

<http://hackforums.net/showthread.php?tid=4222059>

This only want's there OMC address added to there profile, I want it to go further.

2InchWarrior - July 2, 2014, 6:40 pm

I like this but I think the ammount someone has should be removed. It's like view my page and see what's in my wallet you know? And it will help with scams and what not.

Cubez - July 2, 2014, 7:21 pm

This would be an amazing add-on. If it does get accepted it would be allot of work but it would work in the end.

Jack Bauer - July 2, 2014, 7:27 pm

(Jul 2, 2014 07:28 PM)Autopost Wrote: [\[CITE\]](#) stands for not safe for work.. basically hides the images cause I'm on mobile dataoh thats pretty cool.

Thanks for the info dude :p

420 Blaze It - July 2, 2014, 10:08 pm

How come this wont close yet?

1. Omni says he'll do it.
2. Not 1st priority.
3. Too much threads on this.

Autopost - July 2, 2014, 11:14 pm

(Jul 2, 2014 10:08 PM)420 Blaze It Wrote: [\[CITE\]](#) How come this wont close yet?

1. Omni says he'll do it.
2. Not 1st priority.
3. Too much threads on this.
1. Omni said he would do something, what's wrong with ideas?
2. Agreed, personally I'd say 2FA is, but that's up too him.
3. There's one (with a different idea).

Anyway with that being said, I'll close this, as requested, if Omni or someone is happy for this too be here, he can re-open it.
