Thread: [Local File Sender](#)

prologikus - July 2, 2014, 6:26 am

Local file sender, GiveltToME allows you to send files(big file) on a LAN at the maximum speed !

Req:

.net framework 4.5.1

Unfortunately the app doesn't have an process bar to show you the process of sending files ...
+ u can't send folders or multiple file at a time (only if you archive it)

Very nice work, There are many situations where this is useful.

But why no progress bar?

Fuck you and your creepy habit of replying to me just as I post.

You are scaring me.
