So I was just put in charge of a survival games support twitter and need to get a avatar and banner made up for it. Below are what is needed

Avatar

- Needs to say "Nether Support" using this font <http://www.dafont.com/gulag-decay.font>
- Needs to be survival based, preferably use the games screen shots in the background
- Look clean

Banner

- Needs to match the avatar
- Needs to say Nether Support
- Make it clean.
