Osuka - July 7, 2014, 3:42 am

cacnecac - July 7, 2014, 4:29 am

Kinda hard to recommend anything when none of us here knows what both your tastes are....

WZDY - July 7, 2014, 4:44 am

I'm not very familiar with Anime but I'd say...Morbitto, Guardian of the Spirit or Cowboy Bepop's.
The Cowboy Bepop's is very funny.
Natuero is a pretty good choice too.

You mean kinda hard to recommend anything when none of us ever had a girlfriend and we rely on waifus to content our emotional needs...

Vamporno - July 7, 2014, 4:46 am

Well watch Kill La Kill, Zero no Tsukaim, High School DxD (To get your GF on your D), and Dora no Pico (Boku no Pico...).

Its hurtful because its true. :(

@OP, try some Miyazaki. Reason hes so popular is because he appeals to the western world. Stuff like My Neighbor Totoro or Spirited Away. Otherwise theres stuff like Summer Wars, The Girl Who Lept Through Time etc. which are also cheap in HMV and super popular over here.

And so you go and expose the truth.. I ain't even mad.

King Cin - July 7, 2014, 5:10 am

Try one of these:

Koi to Senkyo to Chocolate
Zero no Tsukaima
Hayate The Combat Butler (Hayate no Gotoku)
No Game No Life

White Album 2
AnoHana
Angel Beats
Clannad
Kanon 2006

To be honest, it depends on her taste, mind sharing it with us?

Gladly - July 7, 2014, 5:25 am

Watch anything in the romance genre and she will instantly cling to you. I'd recommend Kanon 2006, Anohana, and Clannad.

Black Hole - July 7, 2014, 7:41 am

I have no idea why you ruled out Boku no Pico....she'd probably love that shit.

MisterDefault - July 7, 2014, 10:27 am

If you are a car guy check out Initial D or maybe Bleach.

coralelixr - July 7, 2014, 10:40 am

I suggest you watch Pokemon. It is a loving story of a 13 year old boy obsessed with bestiality.

0x1027 - July 7, 2014, 10:45 am

Boku no Pico is a great one to watch with you GF

RIPPER - July 7, 2014, 10:51 am

If you want to get her into anime, watch Death Note. It'll get her in right away. :3

Manny - July 7, 2014, 11:33 am

If you want your GF to cry watch Angel Beats, AnoHana, Clannad, maybe even Kanon.

Protoshadow - July 7, 2014, 12:03 pm

Well its a bad idea to ask about it if you don't even say what sort of movies/tv shows she likes. Just one thing don't do as I, don't watch Mirai Nikki together for the first anime...

Hes actually 10. If he was 13, there's be no way I'd watch it. Too old for me.

I mean...

I'll just see myself out now.

Evanescence - July 7, 2014, 1:14 pm

Watch Death Note, it's a pretty cool show

killerexp - July 7, 2014, 2:58 pm

Accel World. Action with romance you and her might like it

Toonami - July 7, 2014, 3:24 pm

It's simple, find out what kind of movies she likes (if you don't already know) and then look for the same genre of anime as that.

stupid liar - July 7, 2014, 3:35 pm

CLANNAD

Clannad: After Story

Angel Beats!

Nagi no Asukara

Howl's Moving Castle

Spirited Away

Gankutsuou(definitely)

Death Note

brother22 - July 7, 2014, 10:41 pm

Clannad, angel beats, kiss x sis (watched these anime with mine and it was fun, lots of tears though for the first two ^_^)

nickchan - July 7, 2014, 10:53 pm

Try to watch rosario vampire or angel beats. Both will be a good experiance to watch with your girl.

HydraFx - July 7, 2014, 11:05 pm

If it's something you're watching with your girl I'd have to recommend Tasogare Otome X Amnesia,

Nisekoi, AnoHana, or Bokura Wa Minna KawaiSou

420 Blaze It - July 7, 2014, 11:34 pm

Nyan Koi and No Game No Life is good :P If she's dirty, go for Date A Live I or II.

Mr. Booze - July 7, 2014, 11:55 pm

Maybe try Guilty crown, Black Bullet or Aquarion EVOL.

Dragon. - July 8, 2014, 12:00 am

OP: What genres are you into? What genres is your girlfriend into?

If you want romance:

Clannad & Clannad Afterstory

White Album 2

Kanon (2006)

Kimi no Iru Machi

If you want adventure/fantasy:

Spice and Wolf (has romantic sideplot)

If you want action:

Sword Art Online

Accel World

If you want comedy (non-ecchi):

Bokura wa Minna KawaiSou

If you want comedy (ecchi):

Machine-Doll wa Kizutsukanai Featuring possibly the horniest heroine of all time.

Noucome <--- This shit is HILARIOUS. It's about a guy whose life is ruled by a "god." This god gives him choices.

Example:

Choose!

1) Have your toes blown off.

2) Have your fingers blown off.

(Yes, the choices are these ridiculous).

Kore wa Zombie Desu Ka? (Hilarious)

Mangaka-san to Assistant-san to The Animation (Dude, don't even get me started on this one).

====

Look into these (they fall into multiple genres):

Sakurasou no Pet na Kanojo (Comedy/Romance/School/Slice of Life)
To Love-Ru (Comedy/Romance/Ecchi)
Tokyo Ravens (Action/Supernatural/Romance)

Thornzzz - July 8, 2014, 12:01 am

I watched Sword Art Online with mine and we both loved it.

segerydrth - July 8, 2014, 5:22 am

Hands down it should be clanned or any romance genre

Peytronz - July 8, 2014, 6:12 am

I myself don't come to the AA section often but this is a special case.

I love romance anime and i think it would be great soooooo lets get to recommending!

Firstly, Anohana if you want the lady to be clinging on to you sobbing about how sad dis bitch is trust me the feels.

Secondly, Ano natsu de matteru (directed by same person as Anohana the skilled Tatsuyuki Nagai) is one of the best romance shows that is often over looked due to the rather odd sci fi aspect but trust me! its soooo good!

Thirdly, Clannad! Clannad is loved by so many people and will be from you and your GF cause who doesnt love clannad? Satanists! thats who!

Lastly, Good luck with the GF!

Mikasa Ackerman - July 8, 2014, 9:00 am

The perfect anime to watch with a girl is Sword Art Online... Trust me. The couple theme cannot be matched packed with a good story and good action.

Dreavis - July 8, 2014, 1:46 pm

Sword art online 2/Gun Gale online(GGO). Very good anime it just started and it's the continuation of sword art online.

He may want to start at the BEGINNING of the show. Not watch the ONE episode of season 2. lol

Onodera Kosaki - July 13, 2014, 11:16 am

I would reccomend Nagi no Asukara.

MAL:

Quote:Long ago, all humans lived in the ocean. But some who longed for the land abandoned the ocean, casting off the special raiments granted to them by the sea god to adapt them to life under the sea...

Though mankind was divided into sea dwellers and land dwellers, each with different ways of thinking, they were all still fellow humans, and they continued to maintain contact as time went on.

Sakishima Hikari, Mukaido Manaka, Hiradaira Chisaki, and Isaki Kaname live in an undersea village, while Kihara Tsumugu lives on land.

When these middle school second-year land and sea dwellers meet for the first time, their hearts begin to undulate like the tides.

The youthful fantasy tale of these young people's lives unfolds in a strange and beautiful world.

Even tho the the summary might not be enough to convince you, i will guarante you that this anime will make your feels some out, and your gf will cling onto you :)

Highly recommended Fantasy Romance Anime
