Thread: [\[NO PM\] \[DIRECT LINK\] How to get \\$1 BTC in 5 minutes \[EASY\]](#)

VirusTotal - July 8, 2014, 8:24 am

I hate people like this user that require to pm him to keep his thread alive:

<https://hackforums.net/showthread.php?tid=4327072>

So I decided to post the tutorial directly

Don't lose time with this kind of people!

METHOD:

1. Go [here](#) and create an account.

To create an account, click "sign up for free", then click "I voted for LAT" then scroll down and click "The household has not claimed Latium" and verify your email. Now you can see that you have LAT 5.000 in your account, that is worth \$1 BTC.

2. Go to [Coin Swap](#) and make an account, once in the account request your Latium address.

3. Go back to <http://latium.cc/> and go to:

My Profile -> Payment Details. Then place the Latium address you just requested, where it says "wallet ID".

4. Go to <http://www.latium.cc/login/affiliates/panel.php#Payouts> and click "request payment"

Within 24 hours, you will receive your Latium coins on Coin Swap and you can exchange them to \$1 BTC instantly.
