Thread: [How To ****ing Hack And Site](#)

egynono - July 10, 2014, 4:07 pm

Hi

How Are You Guys ?

I Got Problem I Know How To Hack Sql Very Well (Manuel + With Program)
But When I Try To Hack Any Site With Released Dork
I Can't Reach To Admin Login Page Or CPanel Or Admin ID:PW
I Must Got Any Problem

All I Want To Know How To Hack CPanel's What Exploit Should I Learn To Hack CPanel's And
Upload My Shell Plz Help Me Guys

Note: Sorry For Bad English

most of the sites your going to find now with public dorks are pretty shit. You're going to have to make your own dorks up and see what you can get from them.

thx for help but how to make my won dork ??!

Th3PonyWizard - July 11, 2014, 9:36 am

Stop wanting. Learn what a cPanel is, learn what dorks are, learn what SQLi is.
