Lol, that screenshot is the best evidence ever, funny how the grammar in the picture is similar to

I can assure you the use of proper grammar, commas, and other marks is of no way relevant to the issue at hand. Please stay within topic or face dire consequences.

I did deals with Dark many times and he's been legit. OP you need better proof man.

Sir I can assure you that my proof is adequate enough for smart-atheists like my partner to asses Dark and tell he is clearly a scammer.

I think that you Mr are collaborating with Dark on this matter and making devious plans to destruct my morale. It's not working.

I don't even know who this 'fd' character is, why are you posting random screen shots of a Skype chat?
