Okay, a picture of a dog without any fur in a way making it look like it had a whole box of goldfish dropped on it. The goldfish burns away the fur but doesn't burn the dog. Oh also with a ganja leaf some where, make it hidden, I am making this request because I am higher than atlantis right now.

I legitimately died laughing. This is me. Ghost typing.

I'm afraid this request is too hardcore for me to complete.. so my ghostly being will now commit seppuku. Double dead.

Hello

<https://swiftly.com/r/1677153>

Can you go here sign up and create a Free task for a photoshop or something?

They offer free photoshop / designs and if you register here I will get 1 free also.

It would be cool for you too, win-win for both of us. You just have to Accept the image they send and leave them a feedback :)

Thanks in regards!
