Thread: [Scammed by UID = 1958436 | Lorde | \\$15](#)

Please do not post stating "You got what you deserve" or things like that. This is serious, he's making hundreds a day by a resolver that no longer works and doesn't care about it.

So two weeks ago, I purchased a simple API from them and it worked perfectly, but for the past week the API hasn't been working and is returning a 524 Error (Web Server Timing Out).

I contacted Lorde (The person that is advertising on HF) and this was his response

Obviously, he doesn't give a damn. So don't waste your money on that resolver, trust me. It's just \$15 so I don't really care but still sad to see.

Take look at this...

If you enter a valid Skype Username, it'll just timeout. If you enter a username that doesn't exist, it'll return saying it doesn't exist.

(Jul 11, 2014 08:46 PM)Lorde Wrote: [\[CITE\]](#) I cant be held responsible when the main developer is away to update our stub. Leaving me no access to our fucking server to update it myself. Cry about it all you want I dont have a way to fix it until he gets back. My reason for not talking to you is because you made a false report on my friend. so if you were gona be a dick to him I was gona do the same to you.

He needs to take responsibility for his product.

Opening a chargeback as well.

Damn, thats so unprofessional of him. Hope you get your money back OP and thanks for letting us

know!

420 Blaze It - July 11, 2014, 8:58 pm

Hope you get your money back, I sometimes hate you for you pathetic scams, but this time it's legit. Lorde is continuously selling this to people without warning people IT DOESN'T work.

Thomas Jefferson - July 11, 2014, 9:01 pm

What a pissy attitude! I hope he gets shot.

What he said. Seems like Lorde didn't even ask what was wrong with the resolver or tried to help him. Lorde is making himself look like a fool.

VRUMM - July 11, 2014, 9:04 pm

He actually has a history of selling non-working products/APIs. His VPN, stresser, battleapi and now his skype resolver.

I just realize that. The only thing that he offers that actually works (Ironically for free) is taking DStats for stressers.

Remix™ - July 11, 2014, 9:27 pm

This report is as legit as they come. Deal with caution with lorde

Tirus - July 11, 2014, 9:29 pm

Legit scam report, as always 0x68.

Good luck buddy.

Sur Justice - July 11, 2014, 9:48 pm

Vouch for 0x68 legit scam report

Lorde should be banned and closed forever. Idiotic immature member.

Aquilaane - July 11, 2014, 9:51 pm

His lack of professionalism is a joke.

"Lorde Wrote: ?Im sorry im not HQ like you maybe you can make a skype resolver since your so 1337."

Made me lawl.

OT: Legit scam report. Thanks for the heads up 0x68.

Crosshairs - July 11, 2014, 9:52 pm

Unprofessional way to deal with customers.

The best part is he actually admitted that he has a developer doing it for me and that he can't even troubleshoot his own servers.

Honestly doesn't surprise me. I bet at least 75% of the "Service Owners" and "Businessmen" don't manage their own crap. They all just pay someone else to do it.

Which hey, if that works it works (and in this case it's quite obvious it isn't working). But the lack of professionalism and having no support for someone who purchased his product: that's just shameful.

?homas - July 11, 2014, 10:00 pm

0x68 bro dude you have opened so many scam reports? Haven't out or maybe I'm mistaken but as always hopefully this gets resolved

Tedaron - July 11, 2014, 10:38 pm

Legit scam report.

Was about to make a report too, but saw this on cobra's twitter.

So I'll wait a bit.

Still I dont see business in Lorde.

Aceman - July 12, 2014, 11:40 am

I don't trust any of your scam reports. You have many unresolved scam reports and have been caught lying in the past so why am I supposed to believe this?

CobraCode - July 12, 2014, 12:05 pm

This was my doing, as I was on holiday.

Everything is back up and running, sorry about the downtime.

Rollin Balls - July 12, 2014, 12:46 pm

Refund or ban his ass just read whole chat in MP discussion and this whole thread. Main reason is the fact he doesn't care if he were to have been less of a dick about it I bet the report probably wouldn't be here. Hope you act that way at your work though you probably don't have a job....

0x - - July 12, 2014, 2:38 pm

The developer fixed the API but I still do not recommend to deal with Lorde, especially with his shitty attitude.
