Thread: [6 Month Free VPN \[Premium\]](#)

- 1) Head over to [Kepard's website](#)
- 2) You will need to make an account. Once you are done, you will head over to this link:
<http://www.kepard.com/get-more-vpn/>
- 3) To gain more days of your VPN, you will have to ref' users by sharing a Twitter or Facebook link.
- 4) Simply share the ref' link and download another free VPN like Hotspot Shield and register.
- 5) Once you register, you will have extended time on both accounts. When time is over, repeat the steps. ?

Bumping this, used kepard before really high quality, and fast speed. Recommend this to everyone.
