[KnightVPN](#)

KnightVPN is out to revolutionize the VPN industry, not only on Hackforums, but on the internet. Are you bored of these new VPN's popping up, reselling servers and then selling the company off? With KnightVPN, this won't happen. Instead we independently source our own servers offering a staggering 80 servers and 55 locations! That means if one connection goes down, you have another 79 to choose from!

How to Enter

To enter, simply wear our signature below and after the given deadline, we will pick 9 random winners for a monthly account and 1 lucky winner for a lifetime!! Its as easy as that.

Please make sure to wear the signature until the deadline, no cheating and if we see anyone switch before the deadline, you will be disqualified!

Make sure to post on the thread to confirm your entry!

I also just want to let you know that I did wear the signature until the 2nd of the said contest end date, seeing as you changed it for whatever reason I decided to change my signature, I hope that this does not disqualify or damper my chances of being "Hand selected" for the giveaway.
