Method (7/10):

I believe this method would work, but there might be complications along the way. The method is white hat but might not comply with ebay policies.

Originality (9/10):

In all of the ebay methods I have seen and used, I have never seen a method like this one. However it is similar to many methods, this method has its own unique idea and twist.

Design (6/10):

Very basic design which a couple pictures but it shows what you need to know.

Overall (7/10):

I would have to agree with this statement "It's short, simple and gets straight to the point of how to make money." This ebook has the potential to make you lots of money if used correctly.

Yes it does require a bit of work from you but it shouldn't take you long, the harder the work the more you will earn.

I personally haven't seen this method before and I may have to give it a shot because it will earn you some extra pocket change.

Best of luck with sales. ? (Jul 14, 2014 07:55 AM)KillaProDiGy Wrote: [\[CITE\]](#) Hello Guys I will be Reviewing this Ebook As I got a Voucher Copy!

CritHit #1: Grammar

The writer of this ebook grammar look like he shoved it out of his ass then ate it again then decided to slop a side of small words with no punctuation on it. I have read ebook from 12 year olds with better grammar. How ever tho he writes like a caveman this ebook is still quite readable and very understandable. Honestly he just missed a few capitals and small punctuation errors. Never less this ebook is very readable and comprehend able.

Grade: 70 / 100

CritHit #2: Content

This ebook is packing straight forward seven pages of content, the user along with his crappy grammar did include pictures and some straight forward material so understanding this ebook should not be hard at all. He makes up for his first grade grammer on this "Crit Hit" which is a plus to this grade. He could of added a bit more of a fun background and a few colorful words how ever to enthuse the reader a bit more as no one like to read straight black. Reading this should not be too much how ever it only seven pages, technically just 6 as the last page has a broken off sentence.

Grade: 90 / 100

CritHit #3: Effectiveness?

As the buyer you want to know if your hard earned or scammed money is going to go to waste or make you a good return. I myself can say this method can give you a big return on the first day if you do this correctly! Now this is ebay but it not any drop shipping bullshit or other shit that just takes long to do which is good. This is not a get rich over night method but it can be damn close to one. The method is based on how hard you work, the earnings can be un limited. How ever, you will be doing some non illegal but slightly fucked up things. Whats nice I am personally going to use this method but remix it with my friend.

Grade: 100 / 100 Note: THIS WILL MAKE YOU MONEY!

CritHit #4: Conclusion?

If you are a stupid, lazy, fat son of a bitch who wants life to come easy and want to pull small immoral tactic to make that happen. You have arrived at the right thread and read the right review. This is a close to "get rich quick" with some tweaks, you can make hundreds if not thousands a week if you grind. In this ebook you are a salesman and your "spiffs" are based on how hard you drill at this. This ebook does work and does have my vouch. You will be bending the rules slightly but you are not breaking the law and face no time behind the bars. So hold on to your soap and get ready to make money. I approve this method as a non bullshit working method.

Vouch for LoweredLifestyle, Knows his shit.

This ebook seems great.

shoxxxy - July 13, 2014, 9:40 pm

This method is not:

? blackhat

? If you get in trouble with the law for doing stupid methods with my ebook, I am not responsible as this method is 100% white hat

How can we get into trouble with the law if the method is 100% white hat? That makes NO sense what so ever... It's like saying you're not responsible if we get in trouble with the law for breathing. It just doesn't make sense to me.

Not trying to hate or be a dick but it truly puzzles me of why that comment is needed.

Edit: So then you respond with being a dick.... lol.

This is MY review. We'll let me start of by saying this isn't truly white hat. I would say grey hat if anything. Now the eBook is easy to read, and you will understand what to do. Now will you have to put effort into this method? Yes, I don't think you will have to put a lot none the less, but yes you will have to put some forth some effort. Can you make over \$100 a day? Yes, but as I said it will take time and effort. So overall this eBook is worth the money and I see no problems with this method. I would defiantly buy this eBook if your looking to make some cash.

Does it involve to resell stuff bought from a well known store?

Just bought the ebook and here's what I have to say :

If you don't have money to invest (I think it's \$300), you get your personal infos exposed to people that are not happy with your service.
I won't even bother doing it.

why would even need to worry about your personal info? they can't do anything regardless.
