I just really like the songs that AnoHana has.

Everytime I hear any of them makes me wanna cry (The feels).

EDIT: Damn it, I forgot to include Sakurasou no Pet na Kanojo..I love the intro and outro for that Anime.

As well as all the other songs in it.

DoubleRainbow - July 14, 2014, 12:01 pm

Samurai Champloo.

Nujabes has some of the best music I've heard. Tasemu will back up this statement as well and you should listen to him.

SavageBoys - July 15, 2014, 2:50 pm

Hm, its tie between Umineko and Samurai Champloo.

The no game no life OST sounds like it will be good but I need to hear it separately to really judge it.

Nevieth - July 15, 2014, 2:54 pm

I really enjoyed the Fullmetal Alchemist Brotherhood soundtrack, I also enjoyed the Code Geass soundtrack, Naruto Shippuden, Blue Exorcist, there are tons of songs that I have saved to my iTunes.

stupid liar - July 15, 2014, 3:48 pm

Haiyore! Nyaruko-san's OST is good.

I like the songs from Mirai Nikki as the rock genre (except for 2nd OP), and other stuff are Black Bullet (all songs), Railgun (all songs from all seasons), Angel Beats (1st OP) and all the songs from Mondaiji-tachi.

Toonami - July 15, 2014, 4:46 pm

Definitely the Durarara!! soundtrack because it has such a uniqueness about it. For example, there's some jazz elements which gave off a noir vibe while the characters were investigating things downtown. I found it refreshing because they incorporated different musical genres which you wouldn't normally find in an anime.

I really liked the KH series and it had great music. Simple and Clean, and Sanctuary remain on my Ipod to this day. I think I'll check out that InuYasha soundtrack.

That OST is full of great instrumental music. I really enjoy the sad emotional tracks, but most people probably aren't into that. My favourite track from KH was the title screen track, Dearly Beloved.

Protoshadow - July 15, 2014, 5:41 pm

Well my favourite is from Guilty Crown.

Spoderman - July 15, 2014, 5:47 pm

FUNimation's DBZ soundtrack by Bruce Faulconer. Easily. Vegeta's Hell Bells theme is so badass.

chowmaine - July 15, 2014, 5:58 pm

I like shingeki no kyojin's soundtrack, and its extra long too :D

Candela - July 15, 2014, 6:03 pm

Obli - July 22, 2014, 4:57 pm

Like Defy_ said, Code Geass and FMA:B are one of the best I came across. Although I've heard good things about fate/zero's OST.

Chips Ahoy McCoy - July 22, 2014, 8:55 pm

Mine would have to be the pet girl of sakurasou. I loved the music they used for everything.
