420 Blaze It - July 14, 2014, 3:17 am

Interesting, legit scam report, although give him 24 hours, anything could happen.

GUNZ™ - July 14, 2014, 3:38 am

Looks like a legit report, Good luck.

sagbot123 - July 14, 2014, 3:40 am

he exchange his dignity for 60usd. thank you sir 420 <3

@gunz yes sir. i hope all people know about this so that it won't happen again.

LittleBobbyTables - July 14, 2014, 12:09 pm

It depends on how he's giving you the bots, I thought. If they're loads (need traffic to get bots), then it will take awhile for you to receive them all. I would probably wait 24 hours, and if you don't get anymore, update.

Valid scam report, though.

sagbot123 - July 14, 2014, 2:45 pm

no. we deal in july 10, 2014 as you can see in skype verification. i always pm to jona. i can't keep waiting now.

@blaze how i can report this in admin?

Magician. - July 15, 2014, 9:04 am

Bots execution rate depends on the type of botnet so I think you wont get more then that.

john12 - July 15, 2014, 9:07 am

If you use a cracked bot you may lose your slaves very quickly

Deko - July 15, 2014, 9:09 am

I recommend you upload the images with his Skype ID visible as the chat you're showing us could have been a mirror profile created by yourself.

Erwin Schrödinger - July 15, 2014, 9:12 am

Seems like a legit scam report.

If he ends his HF career like this, he did it quite cheap....

Good luck resolving this. :3

sagbot123 - July 16, 2014, 1:13 am

@decko how about this sir

@erwin schordinger thanks sir. i hope so...

Gt403cyl - July 16, 2014, 1:29 am

I have never used this service, but I don't see a scam here.

In the first screenshot I see \$50 then he says he paid \$60.

In the first I see buyer asking for 100 free bots seller replied max 20 then I see 130 were sent.

Then the buyer is asking how to do a task and seller provides proper info. (wait and reload)

Buyer has 27 out of 130 bots online by the end of the post, slightly better than 20%, which is pretty good considering the "average" is less than 10% most botnets /rats actually see.

Not meaning execution rate but percentage of online bots from the total infections.

Maybe its just me, hope you guys sort this out.

sagbot123 - July 18, 2014, 12:05 am

im not forcing anybody to believe me. im just saying the truth. thank you.

STR™ - August 3, 2014, 4:49 am

Looks like a fake scam report , can you show me payment proof OP ?

Otis???????????????? - August 3, 2014, 4:54 am

It can possibly be a fake user posing as BlueShark on skype.

Yes , its fake , why would blueshark products would scam for just 50\$, if they earn more than 100-200\$ daily with their products

Exactly, I saw BlueShark around the marketplace alot. This report just seems fishy.

BlueShark™ - August 3, 2014, 5:08 am

First of all, User is very new to Botnet line, he doesn't know all bots on botnet never stay online whole day.

@Second : He paid \$50 for botnet, which he got it within few mins right after his payment. So no scam report over it. which you can all review the screenshots which he already provides on his report.

@Third : I have sent bot to his botnet (raw file) which is not crypted by any crypter.. so ultimately low execution occurs for sure.

@Forth : He paid in paypal. If he thinks i scammed, then why he didn't open dispute on paypal?

@Fifth : He never shows any proof of payment. proof of his botnet, and most funny thing is he trying to hide his skype name. although on first screenshot he forgot to hide his name. such a stupid guy. I can bet he is under 12 :D LOL

Magician. - August 3, 2014, 5:10 am

Dont open fake scam reports you cannot receive full bots on any botnet.

When he did or you are just lieing.

sagbot123 - August 4, 2014, 11:10 am

do whatever you want and think whatever you think. the truth will prevail someday.

TeamCha0s - August 8, 2014, 1:38 am

@sagbot123 : Try to learn mate. You seem too much new in botnets. Blueshark is a nice Guy. I have dealt with him.
