Hey guys, I know that alot of members here on HF have a YouTube channel, do you want to earn some money?

I have made a research and for me, the best network is Acifin Network!

It is very easy to join them, there a few requirements. (If you don't meet the requirements, talk to me and I will help you!)

REQUIREMENTS:

a) You must have 3,000 views & 300 subscribers!

Why should I do this?

Well, for starting, you make easy money, doing videos is the easiest thing ever!

By doing this, I hope you use my referral link, since it will make me profit just as you, without "stealing" your money ? please use [THIS](#) link!

Hope I helped you! Thanks for reading.

I have double-thread lol, delete the other page please.

It would be wise to include what your network provides... Services, Revenue Share, Statistics etc.... Without all of that I must admit that this thread is very shady.

Also it would be wise to talk a little bit about your network's contract... I looked you guys up and found that your a Virtual Network under BroadbandTV Network and I know for a fact that they have lock-in contracts that should be mentioned here.

It's not my network... I'm just guiding them to the link pretty much
