Scenerio. You get in a crazy car crash and your dong gets cut off. In the hospital the doc tell you the he has 2 penises on ice. One is 3 inches and the other is 16". Which would you choose?

I would choose the three inches because it would be easier to take care of. Can you imagine lugging around a sixteen inch one?

I agree, taking the 116' one seems kind of childish. How would you have sex without hurting your partner? Let alone maintenance.

I'd opt for no penis that'd be fantastic! Or the 3 inch 16 would have to be like tied up and strapped to your leg or it'd get in the way of everything.

You could also choose the 16 inch one and then get it cut down to the desired size by a doctor.
