Thread: [Why can't I uninstall Tor Browser ? I can't even open the browser..](#)

BelieveMeSafety - July 15, 2014, 1:17 pm

Sorry for the question guys but i tried seeing their FAQ but nothing is helpful.

I get this error when trying to open it: Firefox is already running but not responding. To open a new window, you must first close the existing Firefox process, or restart your system.

I have windows 8 and i downloaded straight off www.torproject.org website.

ALSO i dont have firefox downloaded on my laptop.....

Any help GREATLY APPRECIATED !
