Thread: [Date A Live. Watched all of s1 in one sitting.](#)

I watched the whole season in one sitting... Eng dub ofc.

It has a very good combination of action, fantasy, comedy and effective sexual innuendo. A very funny and easy to get into anime.

Enjoy :)

You watched it dubbed? Or is that just a random video if so then ew..

I prefer the Japanese dub than English.

Yeah, I watch them dubbed, It's easier for me to get into the story when its dubbed rather then subbed. It's of the reason I haven't been able to finish dtb after having for close to a year now, because I only have a subbed copy not dubbed.

Tbh, yes probably the quality of voice acting is better in it original state, but for what ever reason subbed doesn't come across to be as well.

I watched it too and it was so funny lol.. I watch it Japanese dubbed and English subbed because it's much better that way and doesn't sound fake :D
