Thread: [Selling IRC \(over 300 linux bots \(nixs\) HARD HITTING 30GBPS+ EASILY 0DAY EXPLOIT](#)

Loser Douche Bag #35 - July 15, 2014, 10:51 pm

Yes it's way over 30+gbps.

powerful, has udpflood/httpflood/tcpflood methods. Can work, team viewer is welcomed).

Won't be going first cause it's a IRC Channel.

Accepting BTC/PayPal.

Looking around \$200 for lifetime or so. Prices may be negotiable.

FRESHLY EXPLOITED DAILY, ONLY OTHER USE ON CHANNEL WILL BE ME.

Reason for selling it cause I wanted to test out some zerodays for the lols to see how efficient it is cause I don't do this stuff anymore and haven't in over a year since I don't need ddos power for anything. I use to have over 20k+ back then but that was a different me and different time when I was obsessed but ya too much skids now a days thinking they're the shit with 1 - 10 nix so buy this if you wanna run some of them for the lulz.

I AM ALSO SELLING ZERODAY EXPLOIT TO HAVE THE ABILITY TO EXPLOIT HUNDREDS OF LINUX BOTS DAILY, INCLUDES A THE BOT SCRIPT TOO.

Here is preview

Mike.Jinson - July 16, 2014, 9:42 am

Can you test the ddos to verify its 30gbps!?

Six-Nine - August 3, 2014, 1:17 pm

I am interested in purchasing this for \$80. Send me a PM.

Mike.Jinson - August 3, 2014, 1:19 pm

He has changed the thread details a few times of "why" he was selling it, be careful

Loser Douche Bag #35 - August 7, 2014, 11:18 pm

still selling this, was going to sell to six-nine but his account got closed. So please message me with offers! Thanks.

Combatant - August 7, 2014, 11:30 pm

No offense, but this isn't this just the PMA exploit in which is public? Don't see why you're selling it.

GLWS

Loser Douche Bag #35 - August 8, 2014, 1:31 am

no this is not pma, why does everyone assume pma :(

cobaltcrypt - *August 25, 2014, 10:54 pm*

Hi. What is the price for the zero day. And... can you give more details on it?
