Why don't you fix detections before starting a sales thread?

Bouzs - July 16, 2014, 11:53 am

i can get a better results from public crypter from varius of forums.why would u sell it ? also did u checked heuristics detects?its really easy to make it scan time but when it comes to run time there is a challenge

runtime is already implemented.

yes it has 4 detection's but with a icon it becomes FUD.

This is a crypter cheaper then sold ones, But better then free crypter's.

Highly doubtful you can remove Kaspersky with just an icon...

And if so, why don't you implement a .ico changer takes 2 mins.

adding a icon changer now lol and yes you can remove Kaspersky with icon cuz that scan was a
crypt with the z word i can't say <.<

Fudster - July 16, 2014, 12:54 pm

OP give a vouch copy to someone to review. I may be interested later on.

would but already gave out 7 and none have posted results ect, So there's no more vouch copy's at
this time.

Fudster - July 16, 2014, 1:25 pm

lol? ?? no feedback/reviews eh. Do you have a licence system on it?

TheSonOfTheDevil - July 16, 2014, 2:12 pm

system on it?

yes NetSeal2?

Update: This update is almost done and ready to go out, with will include the following.

- startup [stable making its registry and adding to 5 startup locations]
- persistence
- EOF [adding more support for botnet ect that require's it]
- New Stub
