How much does all this cost?
These Pre-Modded Accounts cost 15\$ USD each!
I also only take Paypal as payment!

[img]http://i1279.photobucket.com/albums/y540/Trance/Re-Dos_zpse16a76f4.png[/img]

If you feel like something may happen to the account you can add 6\$ onto your purchase for one

Re-Do! And if something happens I will remake the account for you

If anything happens after you receive your account i am not held responsible with what you do with what you do with it afterwards like bans and getting reset ect and bare in mind these are Pre-Made Accounts, If you would like a recovery done i can do that for the same price!

Good luck with sales, but this a little over priced.

Thanks, But i see people on othersites and even big modders in other communitys charge maybe like 5-15 for one game alone and im giving you all 4, And as soon as i can do GTA 5 and Ghosts they will also be up there.

Looking to give away a vouch copy with BO2/MW3 Stats on it to a respected member, HMU on Aim for details.
