Thread: [Black/Red/white HF logo Remco](#)

?KyoZ? - July 17, 2014, 3:35 pm

hey guys,

if anyone has some spare time, do you mind making a nice logo for me?

size needs to be 120x150 And file size under 75KB.(HF Requirements)
Also Preferred Colors Would Be Black/Red/White.

Thanks in advance! Post the Results down Below in the Posts!

:Blackhat:

Do you just want it to say Remco? Anything particular this logo will be used for? Do you mean an actual image logo or just text? Thanks

Preferred image logo,, show me what you can do!

Only Text in Remco Something like this as background and my name in it,

<http://wallsew.com/wp-content/uploads/2013/10/black-and-red-abstract-wallpaper-2141-hd-wallpapers.jpg>

only the heart with my name in it idk, do the best you can!
it will be used for my hackforums avatar!

I don't have C4D but I can mess around with what I have. My style isn't exactly like that but I will make some rough stuff and see if any are what you would be looking at. Will post some later on.

DAMNIT i removed this guy's post, please if you read it repost it, But change "ramco" to Remco!
Accident bcuz ur stoned :3?

?

It's fine if you can make a nice matching logo with something like this

i'll be satisfied AF!

Thanks in advance!
