Thread: [Upgraded, how long should I wait?](#)

Shmurda - July 18, 2014, 1:50 pm

Not to be an annoyance, but how long should I expect to wait until my upgrade is placed onto my account? I swear I have read everything possible. If you know how long it usually takes, just inform me.

I'm excited to be more active on this website. It is already a highly welcoming community, and to my surprise there are many products I'm interested in purchasing. Marketing is my thing. Money is an amazing motivator.

I hope to associate with some outgoing people during my stay. I will find myself opening my mind to other's ideas. Any help would be appreciated, thank you.

It all depends but if you read everything, up to 48 hours. Read the important notes if you wait any longer.

4. It may take up to 48 hours to complete your upgrade.

5. Do not contact us unless you have waited 48 hours and you must provide your Reg.net Order ID.
