Rogue DoSer

Posted it in the wrong section last time, sorry..

Rogue DoSer is a tool I made in C#, to Stress Test, or take down website's.

It works for both URL's or IP's

Unlimited Time

Custom UI

Fast Takedowns

Virus Scan:

Sure, but all of the Anonymous DoSer's are all Rat's.

??1x1x1x1 - July 18, 2014, 4:33 pm

Are you going to include any more information?

Attack method, updates, etc?

Flacko. - July 18, 2014, 4:38 pm

rogue im really sorry to be hating on your posts, but you can't call this a doser. maybe a ping ponger. it wont take down any sites. and your using thread.sleep to make it look like your app is "loading source". sure it looks cool and all but its effectiveness is 0 to slim....i like the kitten tho
