Thread: [\[FUD\]](#) [\[JAVA CRYPTER\]](#) [JarProtector 1.1.1](#) [\[Free\]](#) [\[Java 1.5\]](#) [\[3 Stubs\]](#) [\[Open source\]](#)

Burn3diC3 - August 28, 2014, 3:17 pm

First of all I want to thank [Trippy Space Cat](#) for making me move my lazy ass and continue with JarProtector.

JarProtector 1.1.1

Screenshot:

Release notes for JarProtector:

Code 1.1.1

Fixes

- *Fixed critical bug where it could not execute on OSX machines (thanks ariesX)

Other

- *More clean code used

1.1

Improvements

- * Improved performance
- * Smaller stub (only 5kb)
- * Faster encryption
- * Big UI improvement

New features

- * Added the ability to compress the .jar with GZIP
- * Added delay feature

Fixes

- * Fixed problem where the UI would not start on non-windows system
- * Fixed problem where it could not encrypt .jars with too many class files
- * JarProtector should now be able to encrypt any project no matter how big it is or how many libraries it uses

And FUD ofc...

There are 3 stubs. One highly obfuscated, another one more lightly obfuscated and one without any obfuscation. Rename the stub you want to use to "Stub.jar" if you want to use another stub. Also, some kind of "Thank you" would be appreciated. If I don't know if you guys appreciate my work or not then I won't feel motivated enough to re-FUD this.

[Download](#)

Password: PleaseSayThanks

(Source code included in zip file)

Stub dependency: Java 1.5 or higher

kent0o - August 28, 2014, 3:28 pm

Hey Burn3dic3, I guess im one of the first to get a hold of this "(super mario)" JarProtector. I truly appreciate dude! Will get on with testing it out right away!

Burn3diC3 - August 28, 2014, 3:32 pm

(Aug 28, 2014 03:28 PM)kent0o Wrote: [\[CITE\]](#) Hey Burn3dic3, I guess im one of the first to get a hold of this "(super mario)" JarProtector. I truly appreciate dude! Will get on with testing it out right away!

Thanks. If you have any problems then inform me immediately.

x2SiKJaYzZ - August 28, 2014, 3:37 pm

Thanks! I am going to test this out then give some feedback!

Burn3diC3 - August 28, 2014, 3:38 pm

(Aug 28, 2014 03:37 PM)x2SiKJaYzZ Wrote: [\[CITE\]](#) Thanks! I am going to test this out then give some feedback!

Awesome, I really appreciate that ?

?Chief Keef. - August 28, 2014, 3:41 pm

Looks like a nice .Jar crypter.

I'll test this out soon enough.

?

x2SiKJaYzZ - August 28, 2014, 3:54 pm

Am i the only one getting errors? I can't extract or run

Burn3diC3 - August 28, 2014, 3:58 pm

(Aug 28, 2014 03:54 PM)x2SiKJaYzZ Wrote: [\[CITE\]](#) Am i the only one getting errors? I can't extract or run

Extracting the zip file...?

PM me when you see this.

Turned out the .zip cannot be decompressed with winrar because of the compressing method I used with 7zip. I'll fix it tomorrow when I have time. Util then, use 7zip instead.

kent0o - August 29, 2014, 2:15 am

Hey Burn, I've been having difficulties crypting my .jar file. After adding the file and trying to save, nothing happens..??

Burn3diC3 - August 29, 2014, 6:55 am

(Aug 29, 2014 02:15 AM)kent0o Wrote: [\[CITE\]](#) Hey Burn, I've been having difficulties crypting my .jar file. After adding the file and trying to save, nothing happens..??

Exactly what are you doing when crypting your .jar? And what .jar is it? I can successfully crypt a .jar file with JarProtector.

Note: This does not work with Java applets

HelloHowAreYou - August 29, 2014, 7:04 am

Thanks man,
when will you upload the source code? I would like to know how this works.

Burn3diC3 - August 29, 2014, 7:12 am

(Aug 29, 2014 07:04 AM)HelloHowAreYou Wrote: [\[CITE\]](#) Thanks man,
when will you upload the source code? I would like to know how this works.
I'm working on it. I need to clean it up and comment it first. Actually it's almost a year ago I wrote 90% of the code for JarProtector.

?asp3r - August 29, 2014, 8:49 am

(Aug 29, 2014 07:12 AM)Burn3diC3 Wrote: [\[CITE\]](#) I'm working on it. I need to clean it up and comment it first. Actually it's almost a year ago I wrote 90% of the code for JarProtector.
I'd love to see the source for this.

Just HMU via PM when you post a copy of the source.

kent0o - August 29, 2014, 8:51 am

Oh no...!! it was my mistake. I got it fixed now bro.. Thanks and God bless your hustle man.

qweeqwee - August 29, 2014, 10:01 am

Thank you

Will try it soon

Thank you

Eraycharlie - August 29, 2014, 10:38 am

Nice layout and information, like the thought of this

Burn3diC3 - August 29, 2014, 12:12 pm

Thanks for your comments people. I'm working on releasing the source code as soon as possible.

Please PM me if you have any problems with JarProtector

ariesX - August 31, 2014, 2:01 pm

A huge and sincere thanks from me. I have been looking for something like this. And really loved your previous version. Thanks for coming back. You will always have my interest in this project!

And, of course, it works perfectly!

EDIT: Just discovered that the jars that I run through this don't seem to run on OS X. Windows works fine

Burn3diC3 - September 1, 2014, 2:11 am

(Aug 31, 2014 02:01 PM)ariesX Wrote: [\[CITE\]](#) A huge and sincere thanks from me. I have been looking for something like this. And really loved your previous version. Thanks for coming back. You will always have my interest in this project!

Thank you!

(Aug 31, 2014 02:01 PM)ariesX Wrote: [\[CITE\]](#) EDIT: Just discovered that the jars that I run through this don't seem to run on OS X. Windows works fine

That's weird, it should be working on any os. Nothing is hardcoded for a specific OS so this should work on any java compatible computer.

skillzforme - September 1, 2014, 4:55 am

i would like to have the source code man!! i am working a lot in java , maybe i can modify the crypter. thnx

supremmy - September 1, 2014, 5:13 am

Hey Dear, This is Looking nice I will try it soon I hope it will work as U said
Keep it up.
Thanks.

Burn3diC3 - September 2, 2014, 8:27 am

Source code is now released. I'll clean it up and comment it more when I get more time. But for now I have some other projects to work on.

?asp3r - September 2, 2014, 8:45 am

Looked through the source, It's actually really well written.

I'll probably try and mess around with modding it when I get the time.

jjumpm2 - September 2, 2014, 10:48 am

Looks good, appreciate the share, downloading now.

exorc - September 2, 2014, 10:57 am

Thanks for this awesome crypter. I going to test it when i get back home

Burn3diC3 - September 2, 2014, 2:31 pm

Thank you for your kind words guys. If you have any problems contact me.

!!!! - September 2, 2014, 11:35 pm

Great project! Will definitely give a try buddy! :)

Diggydog - September 3, 2014, 3:36 am

Goin to test it later :) Thank you for the upload for free

Burn3diC3 - September 3, 2014, 1:02 pm

I have updated JarProtector with the cleaned source code (an a critical bug fix where it failed to execute on OSX). There are now 3 stubs to chose from.

Trippy Space Cat - September 6, 2014, 12:20 pm

Awesome. Good to you see you still working on this :)

VanThrie - September 10, 2014, 2:17 am

Thank you for free software but high quality. I'm very appreciated that.

User_Name12 - September 10, 2014, 6:38 am

Nice ;) this looks very good and open source too, thanks for releasing

me_goes_rawr26 - September 11, 2014, 4:12 pm

Thanks for the crypter :D I really like it.

Fitted89 - September 14, 2014, 3:13 am

great work, I personally appreciate it, thank you

supremmy - September 14, 2014, 3:55 am

Please guys I need Help.

I am unable to open the JarProtector.

The PW. Is correct I did extract the the files but after that , the JarProtector was unable to open.

please I will appreciate any help .

Thanks in advance.

Lord.Baltimore - September 14, 2014, 7:32 am

Interressent but it's not for crypt malware ?

Just crypt the class of a JAVA project ?

supremmy - September 14, 2014, 8:07 am

the JarProtect was unable to open.

I will appreciate any help .

Thanks in advance.

unoquepasaba - September 14, 2014, 8:22 am

I tried it with CRIMSONRAT, it didn't work.

Burn3diC3 - September 14, 2014, 11:23 am

(Sep 14, 2014 07:32 AM)B_p4tch Wrote: [\[CITE\]](#) Interressent but it's not for crypt malware ?

Just crypt the class of a JAVA project ?

Yes, this will only work with malware coded in Java.

(Sep 14, 2014 08:22 AM)unoquepasaba Wrote: [\[CITE\]](#) I tried it with CRIMSONRAT, it didn't work.

What did you do?

What didn't work?

Which stub did you use?

Did you get any errors?

Please provide me some useful information so I can fix the problem (if there is any, or if it's from your side) instead of simply saying "didn't work".

(Sep 14, 2014 08:07 AM)supremmy Wrote: [\[CITE\]](#) the JarProtect was unable to open.

I will appreciate any help .

Thanks in advance.

I have replied to your PM you sent me

kingspy1112 - October 31, 2014, 3:39 pm

Looks like a nice.thank you_____ _

clarencehsu1234 - October 31, 2014, 9:46 pm

Thanks! but any virus scans? o.o ima use this in sandboxie anyways :D

Burn3diC3 - November 1, 2014, 2:23 pm

(Oct 26, 2014 12:45 PM)yodag566 Wrote: [\[CITE\]](#) Hey, when i open it on Max (OS X) I can't see the button where you click protect, when you have opened it and all that stuff then I can't see the button

that is supposed to be under "Compress .jar with GZIP" Can you help me?:)

Oh my bad. The way I designed the GUI wasn't really multi-os friendly... Well send me a PM if you're interested so I can create a better version for you

(Oct 31, 2014 09:46 PM)clarencehsu1234 Wrote: [\[CITE\]](#) Thanks! but any virus scans? o.o ima use this in sandboxie anyways :D

It's open source, no need for virus scans :)

CheeseCake1591 - November 14, 2014, 9:30 am

I renamed it .jar but it doesn't work?

EDIT: Doesn't matter, I fixed it, my bad

asmy - November 17, 2014, 3:48 am

thanks

when will you upload the source code?

Burn3diC3 - November 18, 2014, 10:53 am

(Nov 17, 2014 04:48 AM)asmy Wrote: [\[CITE\]](#) thanks

when will you upload the source code?

The source code is included in the download inside the folder "src".

betchnigga - November 20, 2014, 3:33 am

i get error!

An exception has occurred: duplicate entry: META-INF/MANIFEST.MF

and the output jar file is corrupted

sonictype - November 20, 2014, 3:39 am

im gonna test it , thanks man in advanced

Fap_Trooper - November 27, 2014, 3:28 pm

Thanking you for this crypter!! But how do you crypt file with this tho? lol sorry noob here :D

Courier Six - November 28, 2014, 6:58 pm

Thanks, it works very well I recommend this to anyone who wants to crypt their Java files! ?

randymike - November 29, 2014, 7:58 pm

Thanks! This is exactly what I have been looking for!

asspecter7 - December 1, 2014, 3:10 am

NICE WORK MAN KEEP IT UP :^) hopefully it stays fud

Kristofferson - December 1, 2014, 3:13 am

Move the source to a repo pls, I like repos.

mathewgeorge - December 16, 2014, 6:17 pm

This seems awesome man Thanks for your help!

amirov1337 - December 17, 2014, 7:42 am

thank you so much. this is pretty software but didn't work with me

Nerdneon - December 17, 2014, 8:07 am

thank you so much. this is pretty software

mendaxx - December 17, 2014, 11:28 am

Thanks! looking longtime for this protector

WorkinRoundDaClock - December 21, 2014, 4:44 pm

Great tool man. Thanks, I have downloaded it so i can check it out :)

RodaFud - December 21, 2014, 5:55 pm

Realmente un excelente trabajo compañero

Te felicito! me encanto!

Tx.xT - December 22, 2014, 12:07 am

Thanks for the crypter :D I really like it

hunterkai102 - January 4, 2015, 7:25 am

Any idea what class I should crypt for a jrat stub?

Ramsey - January 5, 2015, 11:37 am

Wow! just what I needed. will test it now!

badvibes - January 25, 2015, 5:58 pm

Typo on 'Encrypt class + resources'. It says 'reources' instead of 'resources'. Maybe allow resizing and an option to enable frame.alwaysOnTop. other then that, pretty cool! thanks for the share.

Infinite power - February 5, 2015, 11:15 pm

So I tried to use this on JSPy with the highly obfuscated version and it didn't work. When you select the jar it'll give an error that it isn't supported and after crypting it doesn't work (that is kinda what I expected after the error)

Any ideas on how to fix this other than changing to jrat?

GoodFriend777 - February 8, 2015, 4:30 am

(Feb 6, 2015 12:15 AM)ganjalover69 Wrote: [\[CITE\]](#) So I tried to use this on JSPy with the highly obfuscated version and it didn't work. When you select the jar it'll give an error that it isn't supported and after crypting it doesn't work (that is kinda what I expected after the error)

Any ideas on how to fix this other than changing to jrat?

I try to encrypt my jspy server but I have not succeeded so far

I recommed for you the obfuscators theme....

??DgSuX?? - February 8, 2015, 9:47 am

So this doesn't work for jSpy? But anyway thank you man for releasing shit for us.

Infinite power - February 9, 2015, 5:09 am

Tried to crypt my friends stub (not for distribution or anything) and that didn't work for me either. Same error.

Do0na1ld - February 16, 2015, 2:19 pm

Hi!

This does not work with Java

Martin Bishop - February 16, 2015, 2:29 pm

does this work for making keyloggers fud by anti virus? Or is this just to lock stuff so its harder to open?

mafia899 - February 17, 2015, 3:40 am

Thanks! This is just the thing i was looking for:)

DEMonell98 - February 25, 2015, 2:45 am

thanks thaksan dasdff2qf xfbade12 rsdgs

LilHackers - February 25, 2015, 7:08 pm

Thanks mate! Awesome stuff keep up the great work

SIM-2198759 - February 25, 2015, 9:24 pm

Thanks for this man! Really is FUD

Spoiler ([Click to View](#)) [img]http://v2.scan.majyx.net/image.php?id=452309[/img]

deivis145 - February 28, 2015, 2:04 pm

Thanks! Ill test it! Hope this works!

joitna - March 1, 2015, 9:37 am

Thanks ! i'm going to test this, great work !

iBoard - March 10, 2015, 1:04 pm

Awesome work dude. Thanks a lot. You're fricking amazing!

silent hackz - March 12, 2015, 11:15 pm

Thanks a lot for this source shall come to use in the future.

Juventus_ - April 30, 2015, 2:38 am

bro if you continue this project or if you could make me a custom java crypter that is fud with binder ect i will honestly suck your dick and work the balls at the same time, after you have jizzed all over me i will give you \$150 as well

s_trx - May 1, 2015, 5:56 pm

is this project still alive????

juttbmw - May 2, 2015, 6:21 am

can i have a password of crypter

miton - May 2, 2015, 11:06 am

Thanks ! great work ! i testing

ASTRAPI - May 3, 2015, 2:08 am

Thanks that's great :)

I hope that you have the time to refund it when is needed :)

andr3yutzu12 - May 3, 2015, 2:09 am

Awesome work dude. Thanks a lot.

MindFreak™ - May 3, 2015, 2:31 am

Well done buddy . downloaded.

Thanks

hinajaben - May 3, 2015, 6:51 am

plss tell me password .

alhaithem - May 6, 2015, 8:50 pm

Thank you very much
will test asap

RE: Thanks! I am going to test this out then give some feedback!

Ac?s - May 28, 2015, 5:12 pm

Amazing, thank you so much for this. Works like a charm :D

anonymousz - May 29, 2015, 2:46 am

thank you for this i'm gonna try it out

anonss - June 13, 2015, 2:22 pm

I was wondering if anyone could give me some help trying to make the application FUD again, i have little knowledge with java. A big thanks to the creator it really does work like a charm <3

Fractal - June 13, 2015, 2:23 pm

Looks legit, going to try it now. ?

anonss - June 13, 2015, 2:25 pm

It really is a great piece of software, its possible to get 2/37 on a jrat file but im sure someone that can code in java could make it fud easily !

pekopon321 - June 14, 2015, 6:27 am

Thank You :)
ill try to re-FUD this, Thanks again :D

Kilikian_Arch - June 14, 2015, 1:11 pm

thanks for this, please make it support .apk files

mistergaza - June 20, 2015, 4:02 am

tried crypting too buh got some errors running my file.

FFY00 - August 19, 2015, 5:04 am

Its no way to make that but for exe and dll files?

CodeBinary - September 7, 2015, 1:26 pm

Cannot seem to get this working. Gives me errors on crypting and opening can you help on skype?

If so my skype is: IronRopelkov

ozone94 - November 24, 2015, 12:51 am

Hello,
jar protector still works? as I see that the post date long? and thank you for sharing =)

affenkopp - November 24, 2015, 5:14 am
