Thread: [\[Beginners\] How to Skype Resolve \[Beginners\]](#)

**Dr Sargeant** - July 19, 2014, 12:50 pm

This is a Small Tutorial on how to skype Resolve someone!

First, You find a Skype resolver site Here is one of them:

<http://www.resolvethem.com/>

Should Look like this:

Large Image:

Spoiler [\(Click to View\)](#)

After you get to the site, Enter the Users Skype Name Like so:

After you enter the Skype name, Click Resolve:

After you click resolve you should get a IP like this:

Left out 2 Numbers of the IP ^^

I hope this tutorial Helped beginners!

**DPR™** - July 19, 2014, 12:52 pm

Hello.

Just one Tip, fix the size of your images.

Good Job, it help some people.

**Dr Sargeant** - July 19, 2014, 12:57 pm

This is probably the star of the Tutorials-made-for-retards category.

Woah, rude ass faggot. Noobs might not know this?

And anyways, great tutorial.

**Th3PonyWizard** - July 19, 2014, 1:46 pm

And anyways, great tutorial. If you want to resolve a skype account, you will first google every possible combination of it (Skype resolver, Skype resolving, Skype to IP, Skype 2 IP, Skype IP finder, etc etc) and will get his answer. There's no possible way somebody will first register to this forum (through google, etc) and get to a resolving website through HF.

The ONLY possible issue with skype resolving is not knowing the name skype resolving. Once you do, you google it. Usage is NOT A PROBLEM. Pasting a username and clicking a button is NOT A PROBLEM. If you consider this tutorial by any means helpful, serious or useful, you purposefully insult people and dumb them down.

No, sorry, but if somebody doesn't know how to use google he doesn't deserve to be here and have a HF account. I've yet to meet somebody enough of a fucktard to actually need these sort of tutorials. Oh wait, I do. That's basically every retarded RAT user.

</rant>

**Lumia** - July 19, 2014, 2:02 pm

nice tut for retards that cant even use a website,nice job anyway :)

**Arbitrage** - July 19, 2014, 2:08 pm

Great tutorial although I don't think that anyone would actually need it but thanks anyway! :)

(Jul 19, 2014 01:46 PM)Th3PonyWizard Wrote: [\[CITE\]](#) -Cutting this bigass paragraph to a short shit- But can't you acknowledge that they're trying to be helpful?

Wait, of course you do. But you just happen to not like people that attempt to help.

Jeez. Go neg rep me or some shit.

**Stoke** - July 19, 2014, 2:10 pm

Thanks for contributing to the forum with this tutorial.

It may not be the best and people might hate you for it, but atleast you took the time to make a

somewhat HQ thread.

**?Opulence** - July 19, 2014, 2:15 pm

i love how people are such assholes when someone submits something that seems simple to them lol. either way thanks for sharing im sure this has helped some people

**Th3PonyWizard** - July 19, 2014, 2:18 pm

Jeez. Go neg rep me or some shit. Why would I do that? I don't know you nor care enough about you. I'm not handing out cookies for being a nice member. Everybody should be helpful at all times, not being helpful gives you shit, being helpful means you're just doing as expected.

This is common sense. If somebody is lacking it, he shouldn't be here. Fact.

**Dr Sargeant** - July 19, 2014, 3:07 pm

Lol, I just made this thread for beginners of coarse people that are new to "hacking" wouldn't know how to Skype resolve.

**poufpater** - July 19, 2014, 6:54 pm

wow , this is very helpful , just tried it out and worked perfectly

**hahdbwoannniabs** - July 19, 2014, 9:51 pm

Yeah because everyone didn't already know this. Either way, the same shit tutorial has been posted 100 times.

**Sister Mary** - July 19, 2014, 11:29 pm

Most retarded & unneeded tutorial hands down.

**Geck0** - July 19, 2014, 11:36 pm

Was thinking the same haha, It's sad that this tutorial was made.

**+Blitzed** - July 19, 2014, 11:38 pm

I didn't think anyone would have a hard time figuring this out.. ?

Well, Thanks for the tutorial anyways

**oRequiem** - July 20, 2014, 12:35 am

I usually use my own Skype Resolver, but if you want a free web-based one then I would use <http://fastgrab.biz>

**temstin** - July 20, 2014, 3:45 am

I like how he tried to help out the community, but this tutorial wasn't needed. I haven't found anyone that stupid... yet.

**CobraCode** - July 20, 2014, 4:08 am

<http://resolver.in/resolve> - ResolveThem doesn't use their own API, or anything.

**Sysmatic** - July 20, 2014, 4:08 am

Hmm, I always seen this section as a " Come and Ask section" not as a tutorial section? or is that just me being wrong. I think you should post it here [Hacking Tutorials](#)

**Sippie** - July 20, 2014, 4:19 am

Hey guy is there any working skype resolver which resolve directly after the victims gets a new IP. The most resolver take time to get the new one ...

**WaffleKing** - July 20, 2014, 7:48 am

Thanks. I will try this soon. My last one wasn't working right
