Thread: [XMZX Decryption please](#)

**cr86sh** - July 20, 2014, 1:14 am

Hi guys I registered to this forum coz this is my last resort, I searched the net to find an app/way to open that kind of files "XMZX" with no avail. If anyone has an experience with this type of a file or have any app/idea on how to open it please let me know.

Thank you in advance

Pradip, until you rectify the program you sent me or send my money back to me, I will continue to notify everyone that your program does not work. Don't give this guy your money.

Not sure if i supposed to bump the old thread like that, apologies in advance. But i've got research going and i need files for further testing.

So please PM me. First 10 files no charge on success.

Important notice only old xmzx are relevant for now so no latest exemplify json's.

This thread is a couple years old but does anything like this actually exist? Or are they all scams

@Pown1e... please message me regarding your tool. I am a new member with not enough posts to send PM
