Thread: [\[Cinema 4D\] Export animation as .AVI video clip](#)

Charny - July 21, 2014, 4:14 pm

Hey guys, I decided it was time to restart doing video tutorials. I decided to start with something kinda easy but it can be useful for the beginners.

In this short video, I'll show you how to export an animation as a .AVI video clip with Cinema 4D. You can subscribe to my channel for the upcoming videos.

[Video: <https://www.youtube.com/watch?v=CVeSSPU8z1k>]

Sorry for my English, it's not my first language! I'm open to suggestions for my upcoming tutorials.

Thank you! ?
