Thread: [How To Open Multiple Skype Accounts](#)

savaging - July 23, 2014, 3:06 am

hey guys this will be my very first tutorial and it's not to do with hacking it's just a helpful thing i guess

Step 1: Open Up Your Normal Skype And Sign In On Your Normal Account

Step 2: Go to: Computer > Local Disk C > Program Files (86) > Skype > Phone.

Step 3: You Will See A Skype Program Called Skype.exe

Step 4: This Is The Most Important Part, Right Click On The Skype.exe And Run As Administrator

then you can log in on another account and do whatever you want it's and you can do this multiple times.

hope you like this tutorial ?

was not aware this was on skype.com sorry

Well.

<https://support.skype.com/en/faq/FA829/how-can-i-run-multiple-skype-accounts-on-windows-desktop>
This says it all.

Reppinz - July 23, 2014, 3:44 am

Thanks I guess, May be useful for other members. I personally was already aware of this but hopefully this helps out those who weren't aware. Good stuff pal

420 Blaze It - July 23, 2014, 3:46 am

It does say here:

<https://support.skype.com/en/faq/FA829/how-can-i-run-multiple-skype-accounts-on-windows-desktop>
p

Still at least quote on them and give that link as a source.

didnt even realize sorry man, well i have added in the souce so it should be all good

KAMS - July 23, 2014, 7:14 pm

Or a shorter way to do this would be to do the following;

CTRL + R

C:\Program Files (x86)\Skype\Phone\skype.exe /secondary
