Thread: [How To Make Money With MyLikes \[NOOB FRIENDLY\]](#)

Cummodo - July 23, 2014, 12:15 pm

Introduction

Welcome to my "How To Make Money With MyLikes" thread.

In this thread I will be showing you a unique method that I created to make money on [MyLikes](#). This is my first thread on the forums so I want to make it high quality.

Requirements

- Verified PayPal Account
- E-Whoring Pack
- E-Whoring Facebook
- MyLikes Account

MethodSo the method is simple. You will create a facebook account with a fake girl identity.

Then after add a couple a people (Mainly Guys). You will sit back and wait for your friend request to come in. You keep regularly make post and upload pictures. Once you reach max friends which is 5,000 friends you will start to post MyLikes links, and because your a sexy women many people would click on the link. Follow my step-by-step tutorial if you need clarification.

Step 1. Go [HERE](#) to get a women name for your E-Whore.

Step 2.After you have a name you will be creating a email account.

Click [HERE](#) for a Gmail account.

Click [HERE](#) for a Yahoo account.

Step 3.In this step you will find a E-Whore for your facebook account.

You can go [HERE](#) to find lots of E-Whore packs.

When searching for your E-Whore pack look for a pack with picture that don't have nudity.

Step 4.It's time to create your facebook account. While creating your account upload a attractive profile picture of your E-Whore. After adding about 100 people start making posts and upload one picture a day.

Add about 50 people a day if you don't want to risk getting your account locked, but accept all your friend request.

Step 5.After about 1-2 weeks you should have the max amount of friends.

Now you will start to post your MyLikes links.

Post a maximum of 2 links a day you don't want people to un-friend you, and keep uploading pictures and making post.

Step 6. After 5 days of posting links you should have around \$20.00 which is the minimum to cashout.

Summary After the fourth week you should be earning \$5.00 - \$10.00 dollars a day.

This method requires patience, but the earnings are great. You will be making about \$50.00 dollars a week off a hour of work a day.

Of-course you can rinse and repeat this method to make your earnings more.

HELPIf you're unclear about a certain step in this process or need help setting this method up post below or just PM me, and wait for me to respond back to you.

How many friends on Facebook would be a good enough to be able to earn around \$20 a week do you think from your experience?

Dylan.Lam - July 24, 2014, 7:13 pm

Wow this is pretty clever! I think I will try this

This seems like a great method! I was posting to groups though using a massive Facebook manager and I sadly got banned from MyLikes. Do you think they would detect new accounts at all?

I know this because I myself have done this.

GrandpaSwamp - July 25, 2014, 12:46 pm

shouldnt this be in the ewhore section?

Kudo - July 25, 2014, 12:49 pm

Trying out this method now.

For step 4, how should you start adding people? I can't seem to find any good active profiles.

Once you put in all you credentials such as hometown, occupation, where you live, and age Facebook will generate users for you to add. If you still have trouble finding users just PM I could help you out.

Thanks for sharing this method, i think it take a lot of time because facebook limit "add friends" per days but i'm going to try :)

Weekly Avg. = \$50.00
Monthly Avg. = \$150.00
Yearly Avg. = \$2600.00

It's not a lot but from investing a hour a day I'd say its worth it.

brian101 - July 25, 2014, 1:47 pm

Cheers for the helpful thread and the replies, do you know a rough number of friends you can add per day before Facebook start throwing the ban hammer?

Sadly no, to be honest I just randomly started adding people, and then after you add 100 - 250 people the friend request start raining in.

Your asking me a question no-one can answer. I don't know how many people out of 5.6 million will click the link.

Hi dude, excellent post :D

I started 2 ago days and i have 1.000 friends from USA and my objective is arrive to 5.000 friends
.:D

thanks :D?The strategy basically is that your a hot girl.

That's why everyone clicks your links, and if you want even more clicks choose "sexy" on the topics. <http://prntscr.com/47bvf9>

Tamriel - July 28, 2014, 8:36 pm

This is a great method. I started doing this couple hours ago, and now i have 60 followers and 25 friends. But best thing is i added only 5 friends, and rest of them added me. This basiclly means that if you are a hot girl you can get everything :D

Also, this can be used as ewhoring method, you could try selling some pics or vcw shows :)

bullbrand - July 30, 2014, 1:19 pm

Just trying this method out now! Got around 100 friends so far, after about 30 minutes! A little tip (which I'm sure you know) is to join groups called 'add me' etc. Just post a post the requests will come flying in , and separate the high earning countries from the others!

Tamriel - July 30, 2014, 1:27 pm

@bullbrand - great idea.

This method is so great, and it has lots of variety. For example you could post your chaturbate affiliate link, and whenever a pedo decides to join under your link, you will be granted with 1\$:)

Sanctify - July 30, 2014, 1:44 pm

Ooooh, that sounds very legit. I'll give this a try, MyLikes has been my friend for a while now.

Eonx - August 22, 2014, 11:03 pm

I've tried this multiple times, no matter how legitimate of an account I set up (on FB) my account gets locked to where I have to send FB a photo ID proving I am that person when I reach around 2k friends..

very annoying idk how to avoid that.

You can avoid it by adding a phone number and verifying it. Mine didn't get locked until about 6 months. You must be adding to many people.

It happened to be due to the fact that I didn't message guys back, so then they would get butt hurt and report me...

then account gets locked, I'm trying it again to be honest.. made about \$5 over night.. not too bad for only have 1k friends..
