This book blew my mind, you will not regret buying this, plus, it is only \$7. You will make your money back in 30 seconds.

Vouch for OP. (I have never talked to him before this is my review.)

OP, you really seem knowledgeable in the field of e-whoring. I tip my hat to you. Props for making this piece of wonder.

This isn't a method guys, this is an actual full guide on how to trick your victims. Everything is included in it, I won't disclose any important piece of info but holy shit, it's all in. If I was some guy seeking a camshow online I'd go with the said e-whore who applied the little tips and tricks in this guide.

This is really one of the only eBooks I can vouch for. I full vouch for this, you will 100% make your money back, the tips are simple and efficient, right to the point.

A huge vouch for OP.

(I don't know the OP and this is my personal review.)

This really means a lot to me mate ! ?

As this guy said I insist on the fact that this is not a REAL method, this is really an ebook teaching psychology.

Fixed ! Thank you for reminding me to do it ?

Krapow - July 24, 2014, 1:53 pm

Soueuls taught me e-whoring and his advices were very useful to improve my ratio time/money. A lot of tips he gave me are in this e-book.

eight - July 24, 2014, 2:41 pm

Your ebook in a nutshell:

Men are horny so they buy pics of naked women.

soueuls - July 24, 2014, 3:26 pm

Actually I am not really sure to understand what you were trying to mean.

Krapow - July 25, 2014, 4:54 am

I think i tried to explain why people do e-whoring... He didn't get that you explain the way most people think, to get their money more efficiently

soueuls - July 25, 2014, 8:36 am

Yeah I think that's what he was trying to say, but the more I read his post the less I understand it ?

Review: Psycho-Whore.

I have never e-whored and purchased this guide purely out of interest.

This is not a detailed manual about the intricate process of e-whoring. It is about the psychology of the act from someone who is an experienced operator. As such, it is predicated on his knowledge of the actions that have worked for him over the years in which he has been e-whoring.

The Silver and Gold editions include six picture sets: an "asian bunny" (hot!) and five white girls. Not all the white girls were particularly attractive. One was fairly dire. I would not have given her a "seeing to" (even from behind). Each set contains a selection of nudes and non-nudes.

I suspect that the most valuable part is not necessarily the e-book but the one-on-one coaching for purchasers of the Gold Service.

As an experiment, I asked three questions by e-mail. Note that this would normally occur via Skype and hence be far more detailed.

Question 1: This guy says he needs a video session before he will send me money! What should I do?

Author's Answer 1: I would say that I am not doing video sessions because that is more "personal" and I don't plan on being on pornhub or any other kind of porn website. I like the idea of taking the pictures myself and knowing what I am giving.

Question 2: This guy says he wants to send me \$20 but he's been scammed before. What should I say?

Author's Answer 2: I would say that I just really need some money for party and shopping - not a huge amount but that we could do a 50-50 if he feels more comfortable with it. If he refuses I would go first because mathematically you have little chance to meet a very honest guy paying rather than just saying "bye" [in other words - what have you got to lose?]

Question 3: This 70 year old man (who has just got a new prescription for Viagra) wants me to call him! What should I do?

Author's Answer: 3: I would firstly ask him some questions about why is he buying Viagra at all, and ask him some other questions because if old man are on sex chat it is because they need the feeling of someone interested about them [in other words - focus on his relationship needs rather than his sex needs and thus create an atmosphere of intimacy as if you are genuinely interested in his psychological well-being.]

There were a number of spelling and grammatical errors but then no-one is expecting immaculate English. The author is, after all, not a native English speaker. Also, I have to point out that "Tipy" is not a dog's name. Try "Princess" or whatever Paris Hilton calls her canine brood. Also, the title - "Psycho-Whore" - does not clearly articulate the aims or goals of the book. I suggest that the author chooses a more self-explanatory title.

Thanks for your review of the eBook. Helped me make a decision as to what to do (buy or not.) :)

Enjoy the rep!

Very nice read. OP seems to be quite experienced in the field of ewhoring. I don't usually vouch for ewhoring ebooks as I wrote an ewhoring book myself. But this has good potential. GLWS!

Hello sir,

You can pay using Paypal or using bitcoin and you need to pm me saying what package you are looking to buy ?

Mestix - August 3, 2014, 7:07 pm

I was considering eWhoring. Is this something that I can buy to help me figure out everything?

I am not going to lie like some other members but no, this is not another eBook about finding unsaturated places and all it's to learn psychology to master and optimize e-whoring I am not providing any website or any tools (except the pictures pack)

But if you want to start e-whoring have a look at
