SimpleMaterial Theme GDI+ - My Third Theme

Inspiration & Credit to all Theme Creators of the HF

Control List -

- 1) Theme Container
- 2) Control Box
- 3) Radio Button
- 4) Check Box
- 5) Progress Bar
- 6) Panel
- 7) White Button
- 8) Blue Button
- 9) Text Box

Screenshot -

Download -

<http://pastebin.com/7beK34Wn>

Note -

- 1) This is my Third Theme... written while learning so it may have bugs...
- 2) Theme is coded without Themebase...
- 3) Constructive Criticism & Suggestions are always welcome...
- 4) Please leave comments for encouragement... ;)
- 5) Will add more controls if you find it useful & need arises... ;)
- 6) Credits to "Aeonhack" for Roundrect function...
- 7) "oRequiem" asked about it in "Earn's" Suggest a theme thread... & Earn is already working on similar theme, no competition with him/her just tried learning so sharing the outcome... ;) You all can wait for his/her theme too... I know he/she is better coder than me... ;)

Regards
Saket

Change the font of the buttons, it's look horrible.
The theme look like good, good work!

Ya i didn't noticed font is not looking good... using Tahoma font regularly in my last few projects... so used here too... ;) Source code is shared so change it to whatever you want...

Earn - July 25, 2014, 3:59 am

You definitely need to change the font. There are also a lot of things that need to be touched up. Just keep referring back to the image & try to make everything exactly the same. That way you are certain that you have done the theme correctly.

Thanks for pointers... I tried my best to make it look similar... Me still learning buddy... ;)

cracks - July 29, 2014, 4:53 am

thanks for this theme i tried it but the problem is the windows is not movable can u pls check that thanks

You can start coding your current project as that part will not affect your progress... ;)
