Thread: [OMC Chat \[Skype\]](#)

.Matt - July 25, 2014, 2:24 pm

I've ran a skype group chat since the start of OmniCoin pretty much. The chat is primarily for OMC chatter but often is used for general chat too.

Current Members:

Me,
Abraham Lincoln,
Arrow,
BoxHead1080,
Dispaced,
Fade.,
ItsATumor,
Krew,
+Oblivious,
Ortek,
TheMoen,
Vurezo,
Zovers Feare.

[as of 16th Aug]

We have had many members over the couple months and we have finally decided to start to invite some new people as we're running low.

Just pm me your skype or post below why you should be invited and i'll add you if you're worthy :P

SIM-2090815 - July 25, 2014, 2:42 pm

I would like to get in this, ill PM you now :)

Obli - July 25, 2014, 2:43 pm

We also stick to HF's rules. With that being said you cannot scam, ask for rep, or anything like that.

YoloR - July 25, 2014, 2:50 pm

I will PM you why I want to be a part now.

Aceman - July 25, 2014, 3:29 pm

Remove me from the list of people in that chat. I refuse to be associated with a chat that will not kick Tenaxium. Tenaxium fucked over his friends and only wanted to compensate them for his account to be unbanned. There is no purpose in having them in there and it's infuriating to see him be given such special treatment.

Add him to this list, he's been in there since you started it.

.Matt - July 25, 2014, 3:35 pm

All new members have a 1 week trial. At the end of the week there will be a vote and we will see if we keep or kick :)

ItsATumor - July 25, 2014, 6:02 pm

It's a fun group to be in, but have to be legit and HQ and have a decent role in OMC to join. No randys here

VirusTotal - July 25, 2014, 6:19 pm

Add me in please

"indictator"

Thanks in advance :)

SIM-2015410 - July 25, 2014, 8:02 pm

I would like to be added, I'm not sure that I will be active in the discussions much but I would love to be part of the group!

I am semi-planning an omnicoin wallet for android at the moment, not sure whether ill ever finish it, but i would like to join the group in case i have questions.

Thanks!

ItsATumor - July 25, 2014, 8:20 pm

This is not a group for new people to learn, it's for those who know what they're doing and those who take part in sites, trading, mining, and stuff who are in the chat.

Zovers - July 26, 2014, 12:04 am

Sent you a PM Matt. I forgot to mention in the PM though that I have ~40k OMC at the moment.

Ortek - July 26, 2014, 4:11 am

Im interested in joining as well, i dont think i will need to explain why as most of you already know who i am. I earned my stripes already i might say :)

Bro? - July 26, 2014, 7:27 pm

i will be pming you right now.

thanks for this chat

.Matt - July 27, 2014, 2:32 am

Sorry to everyone that i may have pissed off by reading their pm and not replying. I've been rather busy and only chose a few people. I'll go back through the requests and add some more

Aceman - July 27, 2014, 11:28 am

I don't encourage anybody to join this chat. Tenaxium is still very much a part of it and despite my protests for so long they refuse to remove him. As a result, I have removed myself so I want to be removed from the topic as well.

Cubs - July 27, 2014, 11:29 am

I would like an invite, my Skype is Cubs.HS

There is no rule that says HF members can't communicate with banned members lol. If so, whenever your buddy gets banned you "can't" talk to them.

ItsATumor - July 28, 2014, 2:59 pm

still goin strong, we have new members added and are looking for more.

When you link me to a rule which says that banned members cannot talk with HF members over Skype, then sure!

Sorry, we simply do not add anyone who wants to get in. Don't expect me to invite you with a hot cup of coffee and a hot towel. We want experimented individuals in the OMC field, at least knowing the basics and people who are at least active here and in the OMC exchanging field too.

Tenaxium is in the group. Yes. We talk about Minecraft and he complains about how he got closed, is that a problem?

If you want to join, PM me or Matt-boi, although the chances of you getting in if you're not dedicated are slim. WE ALSO ABIDE BY HF RULES SO DO NOT ASK FOR REP, WE WILL REPORT YOU.

Yeah, it isn't an OMC group. Matt is completely not opening back OMC-Faucet, Abraham is completely NOT part of the dev. team either, and Ortek, the person who mines OMC with the most power, is completely not talking actively.

Don't judge our group from a few sympathetic discussions. We're not machines, we need to rest too. You were in for a few hours then got out because people started talking casually and because Fade, the biggest troll you could find concerning these things, told you it wasn't an OMC group.

We were all there since the start of OMC, we have all mined OMCs, some may not involve themselves as much as we do but that's something completely different.

I understand though, you might not want to discuss, chill like any person would do, life is all about work. Completely understandable.

Have a nice day.

I am sorry to say this, but you don't know anything about this chat and its members. Matt and I have operated OMC-Faucet, Abraham is on the dev. team, Ortek has the most mining power, we exchanged currencies to OMC for a LOT of people in the past at rates near AllCrypt ones, we were all mining at the start.

Please, if you're going to make comments such as this one, can you stop posting? This is a recruitment thread, we're not machines, we also talk and we're friends with each other.

And you shouldn't trust Mesh, members told me that he left 30 minutes after I added him. If he can't chill and wants to function like a machine, then it's his choice really. Seems like a nice guy though.

Abraham Lincoln - September 7, 2014, 8:19 pm

We'll I've decided to leave the group. It's true, the talk isn't really OMC related most of the time and I don't have time for whatever else is discussed. Back when it was a couple of guys (like 8-10) the talk was almost always about OMC and was useful, now it's just a distraction. If OMC becomes popular again and the group decides to become an OMC group again, I may consider joining again.

Yeah, when people actually bother doing something with OMC instead of just saying that OMC needs a change, then we can participate more actively. We're doing all we can. Sorry but at this point the coin is failing progressively, we're doing all we can to keep it alive (omc-faucet and ortek's huge mining power), and the worst thing is that nobody has the balls to say it publicly.

Just yesterday the mining diff was of 1.3. What do you want us to do with that?

We are making changes. The coin was dying under the old team, but the new team are going to revive it.

How so? Tell me, what are you going to do that's going to help with the rates? People said "buy from allcrypt, use OMC more often" but that's not the issue. Barely anyone is mining, when Ortek stopped mining the diff fell down to 1.3 a day ago. We need people to use the coin and regular, frequent miners. But nobody is using it for now, I know this is obvious, but people only buy OMCs for the 3p1c upgrade and the award, barely anyone deals with OMC.

So tell me, what are you going to do that's going to help?

Well, as you said, the main issue is the lack of use. We are contacting omni in an effort to increase promotion and usability of the coin on HF.

We aren't sure. It was suggested in the suggestions thread, but we have yet to find out if they are allowed on HF. Certainly, they should be allowed in general, but I have no idea currently if we are allowed to advertise them on HF, or associate them with HF. You could contact one of the staff to find out, if you are interested in making one. I think Aurora also was considering making a dice game if it was allowed to be advertised on HF.

The answer is no. There was someone who created an OMC Dice game a while back, and tried to advertise it on HF. So I doubt that'll change anytime soon.

Gambling is a huge part of Cryptos and should be utilized for omc but out with HF.

Fair point. And I believe the end goal for this is to transform it into a currency that's marketed towards MyBB forums in general, allowing for a larger niche. But anyway, one step at a time.
