Thread: [Change two letters in a small logo thingy. \(or new similar logo\)](#)

Basically I want this image:

[img]<http://i.minus.com/jMgY8Aq4ywcxd.png>[/img]

(<http://minus.com/i/MgY8Aq4ywcxd>)

To have the EN changed to UG.

Thanks in advance to whoever decides to help me, if anyone. ?

(if you're not able to do it with the sample, just something similar)

I guess nobody will do this if you don't pay.

It's not that easy.. you have to design it all over

Well, I posted this in the free graphics requests section, so if they're not willing to do it, I'll notice it.

I'll give it a go :)

Not too hard to do this, I'll post back with results.

By the way, do you know which font was used?

No idea what font, sadly, and thanks for taking time and giving it a go!

However, it doesn't have to be the exact logo etc, just something similar that looks nice. :)
