A free, quick, and easy skype resolver.

Information: This is a brand new resolver made for quick and easy resolves. I never tested the speed of the API yet, so if someone can please post below.

Features include:

Skype Resolver
IP2Skype
GeoIP

Nice resolver buddy. Keep up the good work. Might want to change the title of this thread though, it's quite obnoxious.

What do you think a skype resolver is?

Tropicalityz - August 1, 2014, 6:47 pm

Seems to be currently down. Might want to look into that.

aexit2 - August 2, 2014, 9:52 am

doesnt work at all fuck it any resolver seems to be working

spoof - August 2, 2014, 10:38 am

It's working guys. I dont get what you mean it isn't working lol

aexit2 - August 2, 2014, 11:37 am

IP address associated: IP Not Found

AceVoid - August 2, 2014, 11:50 am

Awesome resolver OP, works great for me.

My Grind - August 2, 2014, 12:22 pm

This is a fast resolver , thanks for it !

spoof - August 3, 2014, 10:44 am

We're back and up guys, sorry i was fixing a few things.

herodragon - August 3, 2014, 11:08 am

this doesn't seem to be working, did something happen none of my skype resolvers work for some reason, does this have something to do with skype disabling old versions?

spoof - August 3, 2014, 11:58 am

Okay, try now guys. I'm VERY sorry for this error. Something went wrong in the API.

Tried a few skype names and all gave the error: IP Address associated with this user: IP Not Found

Seems like all skype resolvers aren't working anymore.

pretty neat website, seems to do the job :)

LightDown - February 25, 2015, 10:17 am

This domain has been seized .. FBI lol

anony-nl - March 26, 2015, 11:34 am

LOL you can't mean this.. LOLOL FBI seized?!

woahxx - March 26, 2015, 12:01 pm

Is this a troll? It can't be seized by the FBI lol..
