Thread: [\[Method\] Earn \\$500-\\$1000 A week \(Yes, A Week\) \[Starts out slow, auto-pilot\]](#)

N7292 - July 27, 2014, 5:10 pm

Hello, this is my first thread actually. And my first contribution :D

I read an ebook (free) on this forum and found that it was lacking, even so I tested it and it worked. But it was still lacking information. So I wanted to write a different version (mine) regarding an easy way to make \$500-\$1000 a week USD.

This method takes time. If you invest \$5-\$10 it will start up in no time (maybe 3 weeks), but if you don't invest it could take up to a year. So invest!

It's a click site. But I have a simple method for it. And it pays. It's been working for me nicely so far.

Good Luck!

EDIT: ALREADY got a few flames for it being a click site. So forget it, don't use it if you are too lazy to click a few things. It works. If you can't take the time. Then don't do it, it is that simple. THIS METHOD WILL TAKE YOU TIME, AND A LOT OF IT. MONTHS, MOST LIKELY.

Are you making \$500-\$1000 a week? (payment proof?)

But at my current rate, it doubles practically per month, but eventually will shorten out according to my ebook. And my experience. It will cap @ \$1000 practically.

I can provide as much proof as you need on skype.

As I said, it is better if you invest. I've been at it for 4 months and didn't invest a dime. But anyone could do what I did in 4 months but in 2 weeks for them if they put in \$10 to the site.

I've received the method, I'll be looking into this. I have some money to invest, so why not?

Hm i'll add later its really hard to even earn 20\$ a week with click this must be some ultra crazy shit or mass advertising refs.. lets talk.

I tried with a few click sites and it was really screwed up. But after finding this one a few months ago I seemed to be able to bring in a decent amount tbh. Then it started to double when I did it a certain way. It's nothing "crazy ultra" as most of the payment proofs on this site are bringing in close or the same as me currently ?
