What you'll need:

Jailbroken Iphone, Ipad, Ipad

Perk Tv [App]

FastForward [Cydia App]

Instructions:

First make sure you have both perk Tv and FastForward on you iDevice. The next thing you want do is sign up with Perk Tv you can do it through your phone but you will need to link it with your face book or you can do it through your pc, you will not need to link it to your Facebook with your pc

Open FastForward app and make sure the Perk TV app is enabled. In the settings, set the playback rate higher. I use 30, but you'll have to play with this setting based on what your internet speed can handle (how fast it can load videos).

Open Perk TV and sign in with your account. When you play the videos, they will play at at least 6 times the speed and they will automatically cycle through all the videos and then start over. The amount of time you leave it running, will determine how much money you make. You get 4 points for every 2 videos you watch.

Insomnia will allow you to lock the screen without having the internet cut off on the app, so it can play through the

Oh, nice little tutorial you have here.

Might just go ahead and try this out.

ImSoToasty - July 28, 2014, 11:38 am

Thank you i hope it works for you as good as it works for me. I usually let my phone do this while i sleep, it gets you a ton of points.

Holy crap, thanks for this method.

I am doing this now, and watching this 10 times the speed.

:D

Dreams - July 28, 2014, 11:55 am

Posted many times already. Confirmed working though.

Nine - July 28, 2014, 12:02 pm

I use to do this method. Gonna try doing it again now. Have like 4000 points atm.

The Winter Soldier - July 28, 2014, 12:12 pm

How much points = how much money. I hope you guys get what I'm trying to say

1000 points = \$1

You get 4 points for every 2 videos you watch.

(Jul 28, 2014 12:23 PM)Dreams Wrote: [\[CITE\]](#) 1000 points = \$1

So, you will need 10000 points for \$10, which means, you have to watch 5000 videos.

How long is each video? So i can calculate it all and see on how much time you can make those \$10. Might want to try it.

Oh and yeah, thanks for this tutorial!

Each video is about 15 seconds with this method?

Fourteen - July 28, 2014, 3:43 pm

I cant find the perk tv app on AppStore? Is it only in us?

Mel0x - July 28, 2014, 3:44 pm

Thanks for the method. I will probably try it later.

(Jul 28, 2014 03:40 PM)ImSoToasty Wrote: [\[CITE\]](#) Each video is about 15 seconds with this method?

Okay, so 15 seconds, if we add a 2 seconds pause between the 2 videos, so we calculate it as 17 seconds each videos, it goes to 85000 seconds = almost 24 hours?

So 10\$ in 24 hours, if am not mistaken?

I guess that's worth it?

Also, how do you get your payment? Paypal or something?

Will definitely try it tomorrow, thanks again!

So, any Non-US person who is using this "perk tv" or whatever and wants to be generous enough to tell us how he got it?

SIM-1179501 - July 28, 2014, 4:35 pm

Overnight how much can you typically make? (8 hours)

I live in Canada and was still able to find Perk TV, but I use a VPN for Perk TV since keeps telling me its U.S only.

In the US, every 2 videos gets you 4 points.

In Canada, every 4 videos gets you 4 points.

In other countries, every 20 videos gets you 4 points.

you shouldn't use a vpn, its against their ToS.

I remember some members got banned or they didn't get their reward because they set it too quick.

This would take way too long if I didn't up the speed. 8 hours for a dollar I'd rather look for change on the ground.

I did not, I have never even watch a video on this so I have no idea of what you speak of. I was taught this by a personal friend and figured why not share it with people who might use it. If you did make a video and you don't mind linking me to it, I would be more then happy to add it to the thread so everyone can see your work.

GL to everyone.

I doubt you will make that much in a day. If you do this for the whole day, you will make like \$1-\$3.

This isn't that great, slow money. Might try it.

Thanks for the share!

Elweth - July 31, 2014, 9:55 am

Perk TV ain't available for my country AppStore sadly, seeing replies that says \$1-\$3 per day kinda turns me off though..

Thanks for sharing! :D

You can basically leave your iPhone on the charger and just let this thing run. I wouldn't do it for too long though since I have seen reports of people getting banned. Already earned over 300 points.

People get banned for violating their ToS; Like this fastforward, vpn or adblock. They'll probably know if you're fast forwarding even if it's x2 the speed. This was pretty known back in April and they got stricter. They ban you when you redeem (processing the item). Some people even get accidentally banned for redeeming at work when they use their device at home but unbanned when the user contacts support. Don't complain if you get banned. Only a 95% chance you will.

The Hundreds® - August 1, 2014, 3:50 pm

Did it at x8 speed and redeemed a \$2 Amazon giftcard, they just sent it out. :)

gyuho945 - August 3, 2014, 10:31 pm

I've been using FF and earned amazon gift cards about \$150(still earning.)

And I'm planning to run FF on the other device. Is it possible that they would sue me? Or they're just gonna ban me?
