Thread: [Flat Theme Feedback](#)

**Cairns** - July 29, 2014, 3:25 pm

So this is a theme I started working on a few hours ago. So far it has a few controls:  
Tab Control

Notification Label

Checkbox

Groupbox

Progress Bar

I am working on a custom status bar at the moment but having problems with serialization in the designer, but no doubt I will fix this soon and can finish this control up.

I have been playing around with colors and so far I quite like them. However the theme is fully customizable.

What is your feedback and what controls should I add?

I will probably release this when I feel that it's worthy of releasing.

Thanks

I honestly like this, I like the tab control looks neat.  
You should add a nice progress bar too.

**Cairns** - July 29, 2014, 3:35 pm

Thanks bro, I'll add a progress bar tomorrow morning definitely

**Cannooo** - July 29, 2014, 3:55 pm

Looks really simplistic and I like it a lot, good job!

By the way when will you release the download or a pastebin for it?

**Oak.** - July 29, 2014, 3:56 pm

I like it.  
Simple designs are what I like.

**DBots** - July 29, 2014, 4:08 pm

Damn this looks nice, very nice.

I like the simplicity of it, looks lite. Easy on the eyes.

**Nervo** - July 29, 2014, 4:08 pm

This is the kind of look I really like. Can't wait for a final release :)

**Cairns** - July 30, 2014, 1:04 am

Thanks everyone. Any other control ideas?

**SaketSaket** - July 30, 2014, 1:27 am

Nice looking theme...

I think you should add Theme Container, Button, Controlbox, Radio Button, Panel & Textbox... etc ;)

**Naywyn** - July 30, 2014, 1:30 am

It's simple, that's why i like it. Nice job.

**Cairns** - July 30, 2014, 4:32 am

Thanks for the suggestions saketsaket. I will implement those after the progress bar

Looks good mate. I'd say the Groupbox is a little too plain. Perhaps adding color to it would make it look a little better?

**Cairns** - July 30, 2014, 5:48 am

Yeah the groupbox is kinda a work in progress bro. I was not happy with that at all lol

**SIM-1676753** - July 30, 2014, 5:53 am

Right, well good luck. Might make a new theme myself later today.

**Cairns** - July 30, 2014, 2:15 pm

Progress bar has been implemented. I'll add button etc soon

I love this theme <3 :) Pretty neat, looks very good.

**Dr.Xavi** - July 31, 2014, 8:53 am

-Nice job.  
-I like the simplicity Theme .

**Cairns** - *July 31, 2014, 9:31 am*

I wasn't sure everyone else would feel it, but hey that's awesome. I'll be working on the button and container tonight

**SirenNinja** - *July 31, 2014, 10:07 am*

You need to add more features to this and release it. This looks beautiful!

**iMeetYourMum** - *July 31, 2014, 10:31 am*

Great, just change the font of the groupbox title.  
Share it please c:

Bump. Who thinks I should actually finish this? lol if some people would like to see it completed and released just let me know and I'll finish it up entirely.

**JustNothing** - *November 20, 2016, 8:06 am*

I like the TabControl.  
Looks nice!
